

Biological Waste Management

(Fermentation of Fish Waste, Agro-Industrial Wastes Tomato Waste , Cotton Processing Waste Agricultural, Waste Treatments, Waste of Dehydrated Onion, Oil Mill Effluent Disposal Swine Waste, Use of Manure Poultry Waste , Cattle Waste, Milking Parlour Wastewater, Pig Slurry Odours)

Introduction

The organic waste stream is composed of waste of a biological origin such as paper and cardboard, food, green and garden waste, animal waste and bio solids and sludge's. Organic waste is usually generated as a component of most waste streams. For information on the treatments for managing organic wastes click on the links to the right. Four significant components of this organic, biodegradable stream are from food preparation, agricultural production, livestock manures, and municipal sewage sludge. Organic waste from food sources includes vegetables, fruits, grains, meats, fish, dairy products, etc., and constitutes some 18% of the typical municipal organic waste stream. An average of 1 kg per person per day of organic waste is produced, originating from households, wholesalers & processors, restaurants, and institutions. Urban centers are the major generators of organic food waste. Agricultural waste includes waste made up of those materials such as manure and animal output, in either solid or liquid form from poultry or other livestock operations. It also includes harvest remains from grain, oilseed, vegetable, and orchard crops.

Increase in biological waste has led to the increase in biological waste management technology. Waste management is the collection, transport, processing or disposal, managing and monitoring of waste materials. The book includes organic waste for biological treatment, organic waste forms and treatment strategies, transformation of liquid manure into a solid, modeling of agricultural waste treatments, utilization of Indian waste in livestock feeds etc. This book also explains the different types of organic wastes like waste from tomato, jute, cotton, agro-industries, dehydration process of onion, piggeries, poultry, milk parlour etc. This book describes the methods how organic waste can be converted into useful products like oxalic acid, ox tetracycline, humic acids etc. The book is highly recommended to new entrepreneurs, existing units who wants to get more information of organic waste treatment.

Table of Contents

1. Organic Waste for Biological Treatment

Introduction, Physiological basis for Hazardous Organic Compound Degradation, Anaerobic Versus Aerobic Transformations, Examples of Hazardous Waste Amenable to Biological Treatment, Petroleum Components, Beta Oxidation, Aromatic Hydrocarbons, Halogenated Compounds, Halogenated Alkanes and Alkanoic Acids, Halogenated Aromatic and Polycyclic Aromatic Compounds, Biodegradation by Mixed Populations, Conclusions

2. Organic Waste Forms and Treatment Strategies

Overview Of Biological Remediation And Waste Treatment Processes, In Situ Treatment, Bioreactor Designs, Examples of Biological Treatment Processes, Treatment of Liquid Wastes, In Situ Treatment for the Remediation of Surface and Groundwater, Bioreactor Treatment of Contaminated Water, Treatment of Solids, In Situ Treatment for the Remediation of Contaminated Soils, Soil Composting and Land Treatment, Bioreactors for the Treatment of Solids, Treatment of Gases, A Summary

3. Transformation of Liquid Manure into a Solid

Possible Processes for Manufacturing Solids from Wet Manure, Methodology of the Selected Process and Design of Plant, Tests of the Plant, Producing the mixture for composting, Producing the pellers, Composting, Drying, Qualities of the Product, Mechanical stability, Odour, Pathogen destruction, Fertiliser, Evaluation of the Process

4. Tomato Waste Water Treatment

Materials and Methods, Experimental cycle, Experimental apparatus, Results, Discussion, Cost Analysis, Conclusions

5. Oxalic Acid From Jute Stick

Methods , Alkali fusion, Nitric acid oxidation, Results and Discussion , Alkali fusion process, Nitric acid oxidation process, Effect of reaction time, Effect of temperature, Effect of catalyst concentration, Effect of nitric acid concentration, Nitric acid oxidation, Conclusions

6. Digestion of Cotton Processing Waste

Methods , Substrate, Analytical methods, Batch fermentation, Bench-scale

studies, Experimental plant studies, Gas analysis, Results and Discussion

7. Properties of Sorghum Stalk

Nomenclature, Methods , Selection of materials, Harvesting schedule, Sample preparation, Measurement of physical properties, Strength characteristics of sorghum stalk, Compression strength, Tensile strength, Shear strength, Results and Discussion, Overall and internodal lengths, Moisture distribution, Solid density of stalk, Compressive strength, Tensile strength, Shear strength

8. Fermentation of Fish Waste

Methods, Fish, Sample preparation, Inoculum, Analytical methods, Microbiological examination, Statistical analysis, Experiment 1 , Experiment 2, Experiment 3, Experiment 4, Experiment 5, Results and Discussion

9. Agro-Industrial Wastes

Methods, Results and Discussion

10. Bioconversion of Pretreated Wheat Straw and Sunflower Stalks to Ethanol

Methods, Substrates, Enzyme, Substrate hydrolysis, Analytical methods, Ethanol assay, Ethanol production, Results and Discussion, Pretreatment of wheat straw, Pretreatment of sunflower stalks, Yeast fermentation

11. Modelling of Agricultural Waste Treatments

Chemical Reactor Theory, Microbial Kinetics, Model Implementation, Extension of the Previous Model to Digestion

12. Utilization of Waste of Dehydrated Onion

Methods, Isolation of Yeasts, Maintenance of strains, Preparation of onion juice from waste products of the dehydrated onion industry , Fermentation media, Tests of C and N sources, etc., Onion juice media, Analytical methods, Results and Discussion, Production of fodder yeast in a laboratory medium, Production of fodder yeast in an onion juice medium

13. Palm Oil Mill Effluent Disposal on Land

Methods and Results, Infiltration tests, Small-scale trials of the general effects of

application of sludge (POMS) to land Trial1, Application to give Specific Benefits to Land, Mulching effect (Trial 3), Restoring rintangings (Trial 4), Commercially Practical Methods and Optimum Input Rates for Application to Oil Palms, Preliminary trials, Long-term experiments (Trial 7), Discussion

14. Studies on Beef-Cattle Manure Slurry Model Development,

Materials, Methods , Measurement of rheological properties, Apparatus and procedure, Results and Discussion, Temperature and total solids effect on limiting viscosity, η_0 , Temperature and TS effect on K", Summary and

15. Meat Meal and Algae for Calves

Methods , Results and Discussion, Performance of calves, Nutritive value of the ration

16. Manures and Sewage Sludge's for Algal Growth

Materials and Methods, Collection and treatment of samples of sludge and manure, Analysis of the wastes, Preparation of media for cultivation of algae, Analysis of properties of waste extracts, Cultivation of algae in various media, Analysis of properties of waste-grown algae, Results, Properties of the wastes, Properties of the waste extracts, Growth rates of algae in various waste extracts, Oven-dried weight of

18. Tower Digestion of Pig Waste

Methods, Equipment, Seed sludge, Pig manure, Tower operation, Analytical methods, Flocculent testing, Experimental design, Results and Discussion , Tower design changes, Flocculent testing, Tower performance, Flocculent effectiveness in the tower, Prospects for scale-up

19. Nutritive Value of Poultry Waste

Methods, Results and Discussion

20. Digestion of Rabbit and Pig Waste

Methods, Experimental design, Digesters, Substrates, Experimental procedure, Analytical methods, Results and Discussion , Energy production, Rabbit wastes, Mixed substrates: v, Pollution Control, Rabbit wastes, Discussion

21. Chemical Composition of Palm Oil Mill Effluent

Methods, Sampling, Fractionation procedure, Assays, Results and Discussion , Pome, Clarification sludge, Conclusions,

22. Humic Substances from Composed Barks

Methods, Organic fertilizers, Chemical analysis, Extraction of humic matter, Sephadex

gel filtration, Results and Discussion, Organic carbon content, Extracting efficiencies of reagents, Influence of extracting solutions, Time of extraction and sample-to-solvent ratio, Number of extractions, Sample particle size

23. Humic Substances From Decomposing Bark

Methods, Raw materials, Chemical analysis, Humic materials, Results and Discussion, Spruce bark, Spruce bark plus hen manure (20%)

24. Particle Size and Tomato Waste Digestion

Experimental Procedures, Results and Discussion

25. Humic Acids on Hydrolysis of Potato Protein

Methods , Materials, Analysis, Experimental procedures, Results, Discussion

26. Effects of Composts on Wheat Yields

Materials and Methods, Results and Discussion, Composition of composts, Experiment 1. Evaluation of composts on an equal nitrogen basis, Experiment 2. Evaluation of composts when added at a flat rate of 5 t/ha in addition to NPK fertilizers

27. Production of Ox tetracycline

Methods, Maintenance of *Streptomyces rimosus* 12907, Vegetative medium, Fermentation medium, Production of ox tetracycline in a fermenter (1200 liter), Determination of amino acids present in fermented mash, Anti-microbial spectrum of ox tetracycline present in the dry mash, Results and Discussion

28. Use of Manure in Fish Farming

Keeping Livestock in the Vicinity of Fish Ponds, Applying Manures to Fish Ponds, Adding Manures to Feeds, Economic Comparison of Feeding and Manuring, Modes of Action of Manure, Direct Consumption of Manure, Manure as a Fertiliser for Autotrophic Production

29. Bacteria in Swine Waste

Materials and Methods, Analytical techniques, Results, Identification, Effect of waste concentration, Effect of pH, Effect of sulfide concentration, Protein production and nutrient uptake, Discussion, Growth characterization, Protein production and treatment capacity, Integration with algal systems

30. Poultry Waste Water as Broiler Feeds

Results and Discussion

31. Utilization of Indian Wastes in Livestock Feeds

Prominence of Salseed Meal, Similarity of Oak Kernels and, Salseed Meal, Oak Kernels in Poultry Mash, Oak Kernels in Cattle Rations, Importance of a Negative Control in Experimental Designs, Rationing of Animals on the Minimum Adequate Requirement

32. Methane from Cattle Waste

Methods , Herd characteristics, Fermenter substrate, Fermenters, Experimental, Results, Discussion , Methane yield, Temperature effect

33. Treatment of Milking Parlour Wastewater

Methods, Pilot-scale reactor system description, Time allocation and operation of each phase of reactor, Analyses, Results and Discussion

34. Indicators of Pig Slurry Odours

Materials and Methods, Chemical analysis, Odour offensiveness test, Raw slurries of excreta, Treated slurries, Results and Discussion, Non-specific characteristics,

Specific odourants, Prediction of odour offensiveness from chemical and biochemical characteristics, Conclusions

35. Pig Liquid Manure

Materials and Methods, Results, Discussion

36. UASB Treatment of Wastes

Introduction, Materials and Methods , Sampling and analysis, Seed sludge, Wastewater characteristics, The 30 m³ semi-technical experimental, pilot plant, RESULTS, Start up and operation, Loading rates and treatment efficiency, Sludge wash out, COD balance and sludge increment, Sludge retention and total methanogenic activity, Discussion, The performance of the reactor at an intermittent feeding, Performance at process temperatures of 20 °C and 30 °C, Sludge retention and sludge wash out, The rate of hydrolysis in the reactor

37. Digestion of Poultry Litter

Methods, Digester feedstock, Digester construction, Digester operation, Analytical methods, Data handling, Solids digestion, Results, Daily fed digesters, Batch digestion, Discussion, Daily fed digesters, Litter composition, Ammonium-N levels, Gas composition and biogas yields, Kinetic model, Batch digestion

38. Beef-Cattle Manure Slurries

Material, Methods, Apparatus, Computational procedure, Modified Reynolds Number, Results, Comparing capillary and rotational viscometer results, The $f=NRe$ correlation for cattle manure slurries, Summary and Conclusions,

How to Start waste management Industry in India, waste management Processing Industry in India, Most Profitable waste management Business Ideas, Waste management & waste treatment Based Profitable Projects, Waste management Processing Projects, Small Scale waste management projects, Starting a waste management business, How to start a waste management business, Waste management & waste treatment Based Small Scale Industries Projects, New small scale ideas in waste management & waste treatment industry, NPCS, Niir, Process technology books, Business consultancy, Business consultant, Project identification and selection, Preparation of Project Profiles, Startup, Business guidance, Business guidance to clients Startup Project for waste management & waste treatment industry, Startup Project, Startup ideas, Project for startups, Startup project plan Business start-up, Business Plan for a Startup Business, Great Opportunity for Startup, Small Start-up Business Project, Start-up Business Plan for waste management & waste treatment industry, Start Up India, Stand Up India, Modern small and cottage scale industries, Profitable small and cottage scale industries, Setting up and opening your waste management & waste treatment Business, How to Start a waste management & waste treatment industry?, How to start a successful waste management & waste treatment business, Best small

and cottage scale industries, Waste management & waste treatment industry, Business, Profitable Small Scale Manufacturing, Organic Waste Forms and Treatment Strategies, Organic Waste for Biological Treatment, Transformation of Liquid Manure into a Solid, Tomato Waste Water Treatment, Oxalic Acid From Jute Stick, Digestion of Cotton Processing Waste, Properties of Sorghum Stalk, Fermentation of Fish Waste, Agro-Industrial Wastes, Bioconversion of Pretreated Wheat Straw and Sunflower Stalks to Ethanol, Modeling of Agricultural Waste Treatments, Utilization of Waste of Dehydrated Onion, Palm Oil Mill Effluent Disposal on Land, Studies on Beef-Cattle Manure Slurry Model Development, Meat Meal and Algae for Calves, Manures and Sewage Smudges for Algal Growth, Tower Digestion of Pig Waste, Nutritive Value of Poultry Waste, Digestion of Rabbit and Pig Waste, Chemical Composition of Palm Oil Mill Effluent, Humic Substances from Composed Barks, Humic Substances From Decomposing Bark, Particle Size and Tomato Waste Digestion, Humic Acids on Hydrolysis of Potato Protein, Effects of Composts on Wheat Yields, Production of Oxytetracycline, Use of Manure in Fish Farming, Bacteria in Swine Waste, Poultry Waste Water as Broiler Feeds, Utilization of Indian Wastes in Livestock Feeds, Methane from Cattle Waste, Treatment of

Milking Parlor Wastewater, Indicators of Pig Slurry Odors, Pig Liquid Manure, UASB Treatment of Wastes, Digestion of Poultry Litter, Beef-Cattle Manure Slurries, BOD management, air pollution, Biological fermentation of fish waste, Utilization of Agro-industrial Wastes, physical properties Strength characteristics of sorghum stalk, soil pollution, Pathogen destruction, Fertilizer, Nitric acid oxidation, Nitric acid oxidation process, Solid density, Compressive strength, Tensile strength, Shear strength of stalk,, Enzyme, Isolation of Yeasts, Maintenance of strains, Preparation of onion juice from waste products of the dehydrated onion industry , Production of fodder yeast in an onion juice medium, Yeast fermentation, Chemical Reactor Theory, Microbial Kinetics, Ethanol production, Collection and treatment of samples of sludge and manure, Preparation of media for cultivation of algae, Analysis of properties of waste-grown algae, Growth rates of algae, Seed sludge, Pig manure, Pig manure and rabbit wastes, Organic fertilizers, Manure as a Fertilizer for Autotrophic Production, , Effect of pH,

Effect of sulfide concentration, bio gas plant, COD balance and sludge increment, Sludge retention and total methanogenic activity, aerobic and anaerobic bacteria, fermentation of yeast, BOD, water pollution, sludge management, biodegradable and non- biodegradable waste, manure and fertilizer, Waste management, Waste Management: Waste disposal, Collection and Removal, types of waste management, importance of waste management, Waste Material Utilization.

Niir Project Consultancy Services (NPCS)

can provide Process Technology Book on

**The Complete Book on Biological
Waste Treatment and their Utilization**

Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects.

Here's we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website www.entrepreneurindia.co that is "Instant Online Project Identification and Selection"

NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2008 Company

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Industry Trends*
- *Market Research Reports*
- *Technology Books and Directory*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Who do we serve?

- *Public-sector Companies*
- *Corporates*
- *Government Undertakings*
- *Individual Entrepreneurs*
- *NRI's*
- *Foreign Investors*
- *Non-profit Organizations, NBFC's*
- *Educational Institutions*
- *Embassies & Consulates*
- *Consultancies*
- *Industry / trade associations*

Sectors We Cover

- *Ayurvedic And Herbal Medicines, Herbal Cosmetics*
- *Alcoholic And Non Alcoholic Beverages, Drinks*
- *Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin*
- *Activated Carbon & Activated Charcoal*
- *Aluminium And Aluminium Extrusion Profiles & Sections,*
- *Bio-fertilizers And Biotechnology*
- *Breakfast Snacks And Cereal Food*
- *Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling*

- *Bamboo And Cane Based Projects*
- *Building Materials And Construction Projects*
- *Biodegradable & Bioplastic Based Projects*
- *Chemicals (Organic And Inorganic)*
- *Confectionery, Bakery/Baking And Other Food*
- *Cereal Processing*
- *Coconut And Coconut Based Products*
- *Cold Storage For Fruits & Vegetables*
- *Coal & Coal Byproduct*

- *Copper & Copper Based Projects*
- *Dairy/Milk Processing*
- *Disinfectants, Pesticides, Insecticides, Mosquito Repellents,*
- *Electrical, Electronic And Computer based Projects*
- *Essential Oils, Oils & Fats And Allied*
- *Engineering Goods*
- *Fibre Glass & Float Glass*
- *Fast Moving Consumer Goods*
- *Food, Bakery, Agro Processing*

- *Fruits & Vegetables Processing*
- *Ferro Alloys Based Projects*
- *Fertilizers & Biofertilizers*
- *Ginger & Ginger Based Projects*
- *Herbs And Medicinal Cultivation And Jatropha (Biofuel)*
- *Hotel & Hospitability Projects*
- *Hospital Based Projects*
- *Herbal Based Projects*
- *Inks, Stationery And Export Industries*

- *Infrastructure Projects*
- *Jute & Jute Based Products*
- *Leather And Leather Based Projects*
- *Leisure & Entertainment Based Projects*
- *Livestock Farming Of Birds & Animals*
- *Minerals And Minerals*
- *Maize Processing(Wet Milling) & Maize Based Projects*
- *Medical Plastics, Disposables Plastic Syringe, Blood Bags*
- *Organic Farming, Neem Products Etc.*

Sectors We Cover *Cont...*

- *Paints, Pigments, Varnish & Lacquer*
- *Paper And Paper Board, Paper Recycling Projects*
- *Printing Inks*
- *Packaging Based Projects*
- *Perfumes, Cosmetics And Flavours*
- *Power Generation Based Projects & Renewable Energy Based Projects*
- *Pharmaceuticals And Drugs*
- *Plantations, Farming And Cultivations*
- *Plastic Film, Plastic Waste And Plastic Compounds*
- *Plastic, PVC, PET, HDPE, LDPE Etc.*

Sectors We Cover *Cont...*

- *Potato And Potato Based Projects*
- *Printing And Packaging*
- *Real Estate, Leisure And Hospitality*
- *Rubber And Rubber Products*
- *Soaps And Detergents*
- *Stationary Products*
- *Spices And Snacks Food*
- *Steel & Steel Products*
- *Textile Auxiliary And Chemicals*

- *Township & Residential Complex*
- *Textiles And Readymade Garments*
- *Waste Management & Recycling*
- *Wood & Wood Products*
- *Water Industry(Packaged Drinking Water & Mineral Water)*
- *Wire & Cable*
