

Business Ideas for Beginners: How to Start a Small Business

(Glass Mirror, Electric Tandoor, Full PVC Footwear, Hot Cases, Manufacturing of Batting Gloves, Noodles, PVC Cables, Portfolio Bag, Public Address Amplifier, Rectifier D.C, Sugar Globules, Textile Screen Printing, White Staples Pins, Wrought Iron Furniture, Surgical Dresses (Doctor's Dresses), Electric Furnace, Bee-Hive Metallurgical Coke, Cry Data Display Monitor (Monochrome), Control Panel (For Single Phase Submersible Pumpset))

Introduction

Everyone wants to do something that gives them chance to earn more money and it is possible by becoming an entrepreneur. Starting your own business is one of the few remaining paths to wealth. Entrepreneurship is one of the critical decisions to be made and it involves number of risk and has its own advantages also. But the charm of being a master of you is always above any other form of work. To start your own venture you have to decide on many things. Making a choice of the right project is a difficult decision for an entrepreneur and is an imperative decision. To start a business of your own you need to understand the environment to set up an

enterprise of your own. The small scale enterprise sector is a dynamic and vibrant segment of the Indian Economy. This sector is the nursery for the development of entrepreneurial talent and has grown into an important component of the production chain. In both developed and developing countries, the Government is turning to small and medium scale industries and entrepreneurs, as a means of economic development and a veritable means of solving problems. It is a seedbed of innovations, inventions and employment. You do not need to be a genius to run a successful small business, but you do need some help. And that is exactly what this book is, a guide into the stimulating world of small business ownership and management.

Startup India Stand up

Our Prime Minister unveiled a 19-point action plan for start-up enterprises in India. Highlighting the importance of the Standup India Scheme, Hon'ble Prime minister said that the job seeker has to become a job creator. Prime Minister announced that the initiative envisages loans to at least two aspiring entrepreneurs from the Scheduled Castes, Scheduled Tribes, and Women categories. It was also announced that the loan shall be in the ten lakh to one crore rupee range.

A startup India hub will be created as a single point of contact for the entire startup ecosystem to enable knowledge exchange and access to funding.

Scope of entrepreneurship development in India

In India there is a dearth of quality people in industry, which demands high level of entrepreneurship development programme throughout the country for the growth of Indian economy.

The scope of entrepreneurship development in country like India is tremendous. Especially since there is widespread concern that the acceleration in GDP growth in the post reforms period has not been accompanied by a commensurate expansion in employment. Results of the 57th round of the National Sample Survey Organization (NSSO) show that unemployment figures in 2001-02 were as high as 8.9 million. Incidentally, one million more Indian joined the rank of the unemployed between 2000-01 & 2001-02. The rising unemployment rate (9.2% 2004 est.) in India has resulted in growing frustration among the youth. In addition there is always problem of underemployment. As a result, increasing the entrepreneurial activities in the country is the only solace. Incidentally, both the reports prepared by Planning Commission to generate employment opportunities for 10 crore people over the next ten years have strongly recommended self-employment as a way-out for teaming unemployed youth.

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2008 Company

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Industry Trends*
- *Market Research Reports*
- *Technology Books and Directory*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Who do we serve?

- *Public-sector Companies*
- *Corporates*
- *Government Undertakings*
- *Individual Entrepreneurs*
