Introduction

Yunani or Unani medicine is the term for Perso-Arabic traditional medicine as practiced in Mughal India and in Muslim culture in South Asia and modern day Central Asia. The term is derived from Arabic Yūnānī "Greek", as the Perso-Arabic system of medicine was in turn based on the teachings of the Greek physicians Hippocrates and Galen.

The Hellenistic origin of Unani medicine is still visible in its being based on the classical four humours: Phlegm (Balgham), Blood (Dam), Yellow bile (Şafrā') and Black bile (Saudā'), but it has also been influenced by Indian and Chinese traditional systems.

This book majorly deals with the, habitat, description, procedure and time of collection, chemical constituents, method of processing, therapeutic uses of medicinal plants. This book also constitutes the list of institutes of Unani medicines, list of college of Unani medicines in India, world importers of natural medicine.

This publication is one of its kinds which clearly indicate the usefulness of Unani medicine, shows how the plant secrets, preserve the natural secrets/ hormones/ juices which ultimately uses in Unani system of medicine. This book is most informative and useful for students, Research scholars and scientist. We hope this book will achieve the long standing demand of herbal chemists.
