

Best Business to Start in **Arunachal Pradesh, India:** **Startup Projects Ideas**

Introduction

Arunachal Pradesh is a state of India, its capital is Itanagar. More than half of the population of Arunachal Pradesh is engaged in agriculture, but only a very small portion of the land is under cultivation. Land is cleared by burning the vegetation, is cultivated for several years, and then is abandoned in favor of another site when the productivity of the soil declines. Rice, corn (maize), millet, and buckwheat are among the chief crops grown by this method. Arunachal Pradesh has significant, though largely unutilized, resource potential. Among its resources for generating energy are rivers, coal, and petroleum; most of the state's power is provided by hydroelectric plants.

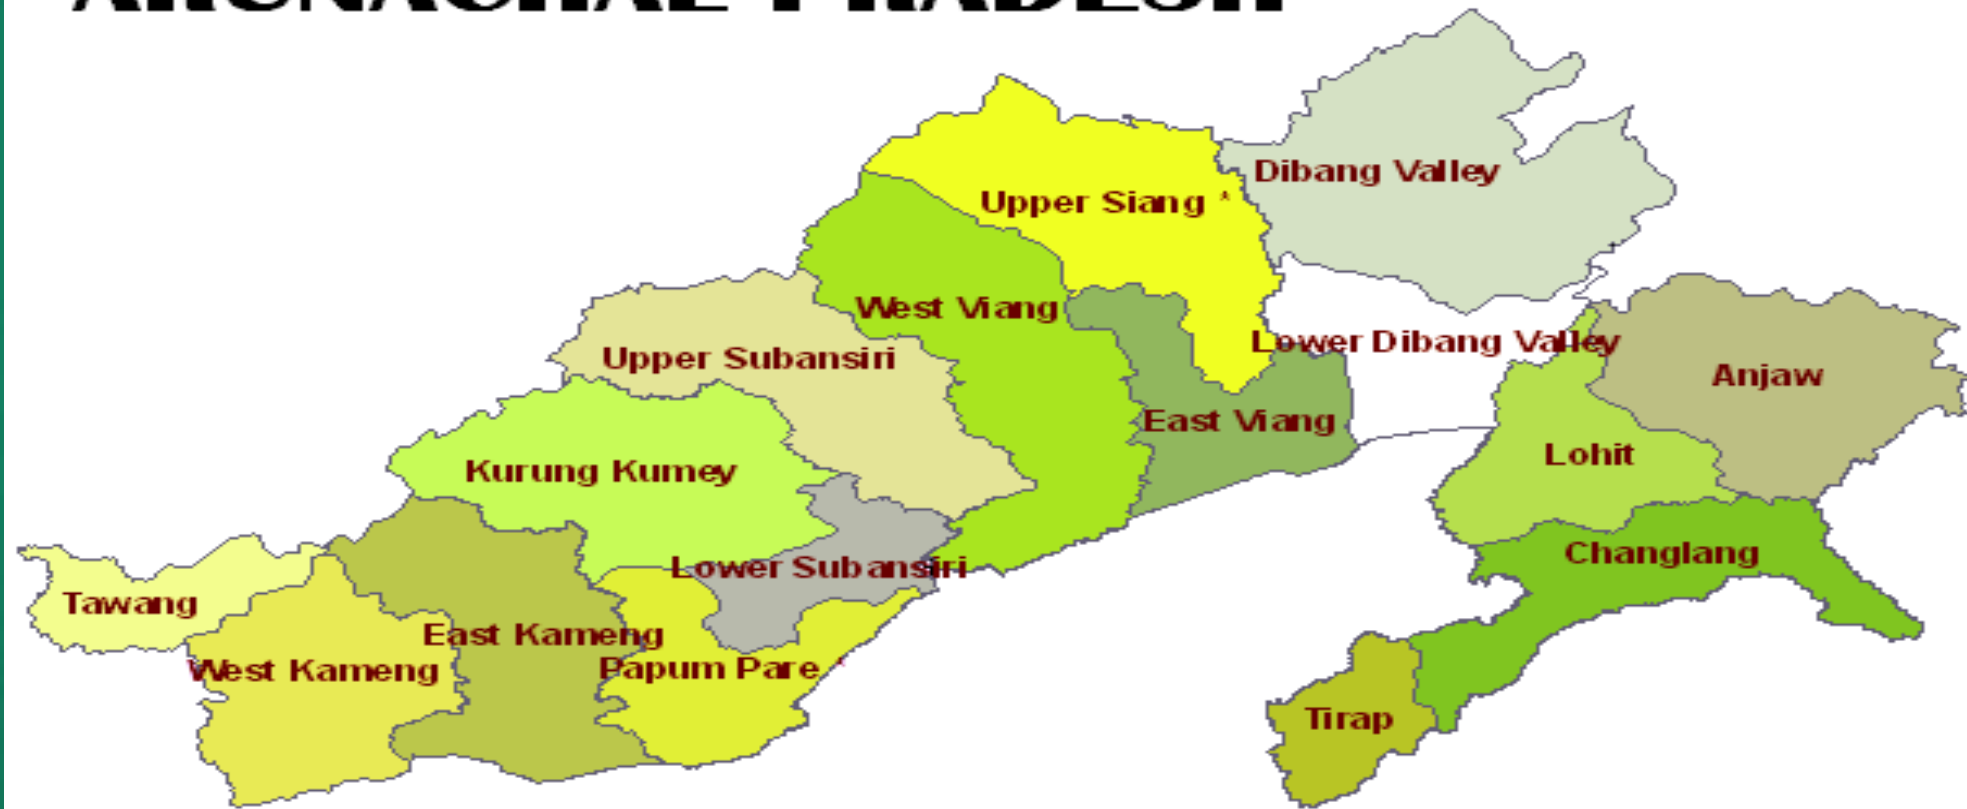

The Indian state of Arunachal Pradesh has a total population of roughly 1.4 million (as of 2011) on an area of 84,000 km², amounting to a population density of about 17 km⁻². Andhra Pradesh, the eighth largest state in India, is endowed with agrarian, natural, and mineral resources, and is blessed with the second longest coastline (974 km) in the country. The state has a very strong agrarian base, and more importantly, a very large English speaking human resource base.
