Introduction

The materials now available for packaging are paper and paper products, metal containers and foils, glass, plastics-rigid and flexible, cellulose films, textiles including jute, woven plastics and wood. Among the packaging materials, paper and paper based products continue to occupy a predominant place.

Paper based materials used for packaging include bleached and unbleached Kraft, corrugated and solid fiber boards, and a large variety of converted items like wax coated, plastic coated, bitumen coated etc. Corrugated and solid fiberboard boxes have replaced the conventional wooden boxes as transport containers because of their lightweight and satisfactory strength.

Packaging has been assuming importance in the context of growth of industries in general and consumer industries in particular. Paperboard packaging has gained prominence in the last two decades, with the emergence of modern retail formats where visual appeal, shelf life and unique brand identity have taken the centre stage.

Paperboard packaging offers all these advantages and more – it is consumer-friendly, provides excellent product protection, is lightweight, easy to transport & stack and easy to dispose of. Most importantly, paperboard packaging is biodegradable. With increasing consumer awareness and focus on ‘green packaging’, paperboard is gaining ground in the packaging industry. Thus, as an entrepreneur this project offers an exciting opportunity to you.

Market Outlook

Global demand for paper and paperboard is forecast to grow to 482 million tons in 2030. This equals an increase of 1.1 per cent per year.

The global paperboard packaging market is expected to reach a valuation of US\$227.47 bn at the end of 2024 displaying a 7.1% CAGR from 2016 to 2024. In 2015, the market stood at a valuation of US\$122.69 bn.

Paperboard box demand in the U.S. is forecasted to increase 2.6 percent per year to \$39.4 billion in 2018, improving from the performance of the recession-impacted 2008-2013 period. Gains will be driven by a rebound in manufacturing output and continued expansion of the overall economy.

US Corrugated & Paperboard Box Demand

ITEM	2008	2013	2018	2018-2013	2013-2018
Corrugated & Paperboard Box Demand	32635	34650	39400	1.2	2.6
Corrugated & Solid Fiber Boxes	23235	24940	29010	1.4	3.1
Folding Paperboard Boxes	8900	9230	9880	0.7	1.4
Set-Up Paperboard Boxes	500	480	510	-0.8	1.2

In consumer packaging, paperboard is mainly used for the manufacture of printed folding cartons (87% of the market), liquid packaging cartons, composite containers and paper cups. The Indian paperboard packaging industry accounted for around 21% of the total consumer packaging market that was valued at INR 472 billion in last year. Paperboard packaging, valued at INR 100 billion, is forecast to reach \$25796.6 million by 2018.

One of the major trends in the folding carton market is increase in technological innovations wherein with the use of the latest technologies and designs, vendors are launching new products to address the growing demand for folding cartons. The analysts forecast the global folding carton market to grow at a CAGR of 4.12% during the period 2016-2020.

Reasons for buying our report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on **Paper Cartons** ” provides an insight into the **Paper Cartons** market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of **Paper Cartons** project. The report assesses the market sizing and growth of the Indian **Paper Cartons** Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the **Paper Cartons sector in India along with its business prospects. Through this report we have identified **Paper Cartons** project as a lucrative investment avenue.**

Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects.

Here's we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website www.entrepreneurindia.co that is "Instant Online Project Identification and Selection"

NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.
