

Sweat Free and Antibacterial Socks

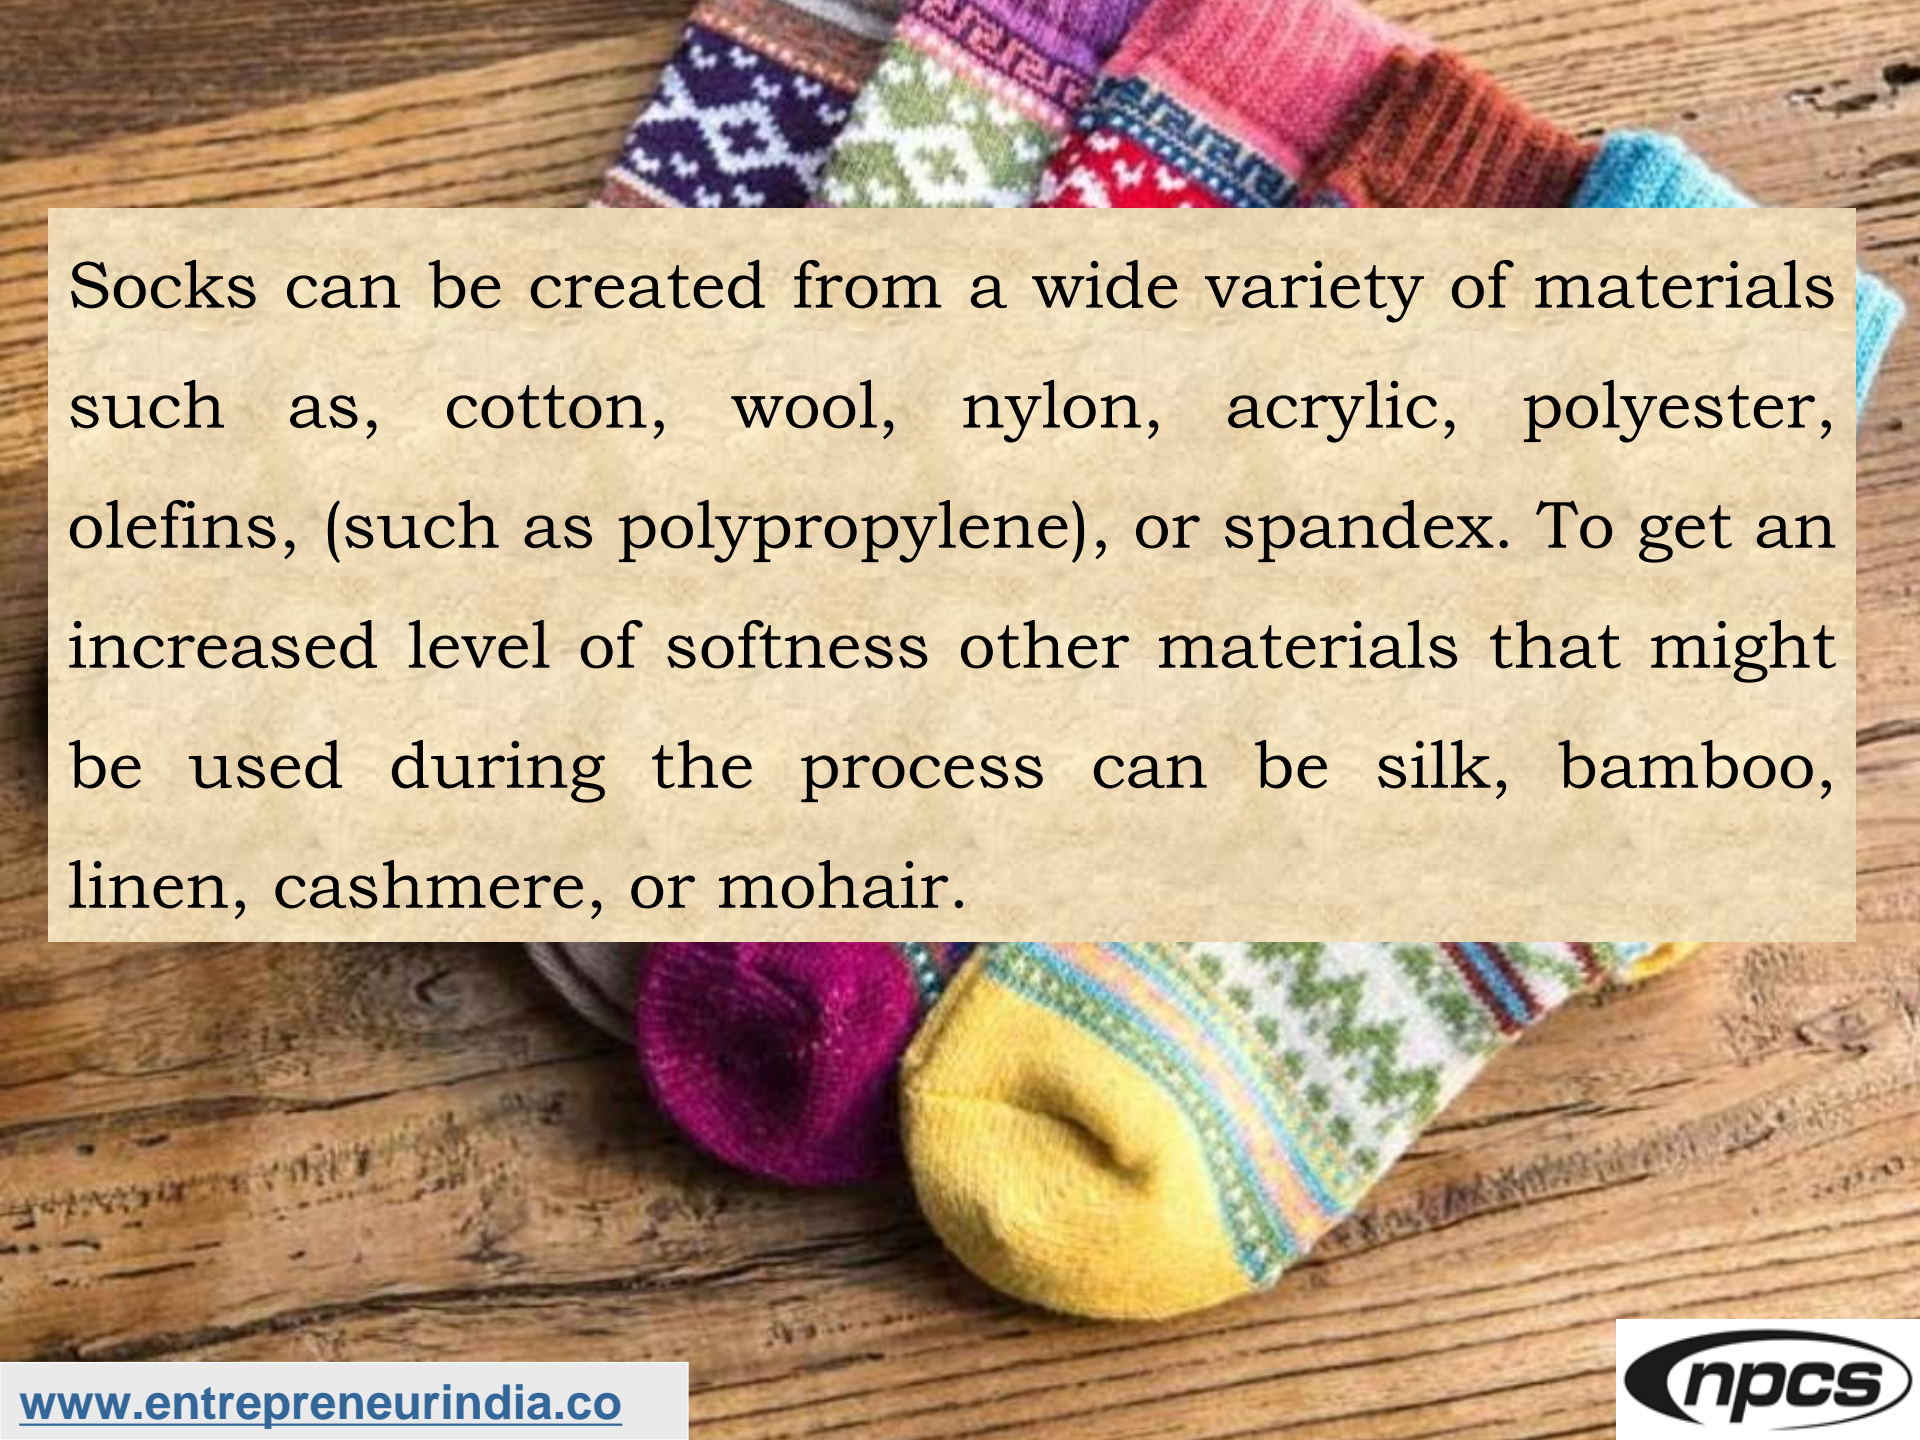

Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule, Working Capital Requirement, Plant Layout, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis

Introduction

A collection of colorful, patterned socks is scattered on a rustic wooden surface. The socks feature various designs, including geometric patterns and solid colors like purple, green, red, blue, and yellow. The wooden background has a natural grain and texture.

A sock is an item of clothing worn on the feet and often covering the ankle or some part of the calf. The foot is among the heaviest producers of sweat in the body, as it can produce over 0.12 l of perspiration per day; socks help to absorb this sweat and draw it to areas where air can evaporate the perspiration.

A collection of colorful, patterned socks is displayed on a rustic wooden surface. The socks feature various designs, including geometric patterns and solid colors. The colors include purple, green, red, blue, yellow, and pink. The socks are arranged in a way that shows their cuffs and patterns. The background is a light-colored wooden surface with visible grain and texture.

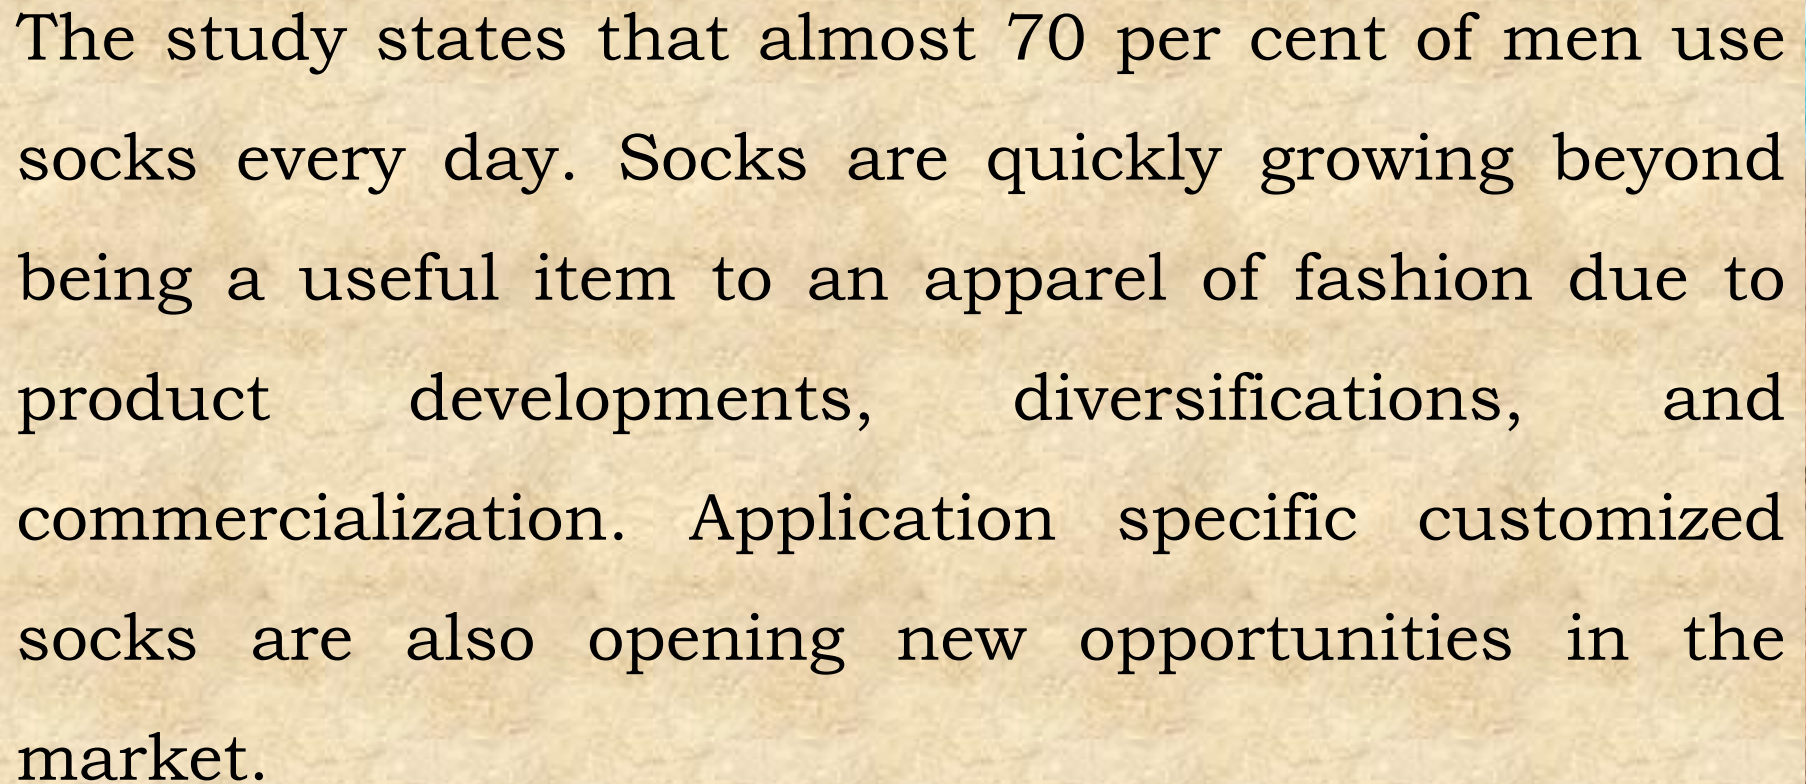

Socks can be created from a wide variety of materials such as, cotton, wool, nylon, acrylic, polyester, olefins, (such as polypropylene), or spandex. To get an increased level of softness other materials that might be used during the process can be silk, bamboo, linen, cashmere, or mohair.

Market Outlook

Only 2 per cent of population in India wears socks and therefore, 98 per cent market is yet to be exploited. A sock is an item of clothing worn on the feet. The foot is among the heaviest producers of sweat in the body, as it is able to produce over a pint of perspiration per day. Socks help to absorb this sweat and draw it to areas where air can evaporate the perspiration. In cold environments, socks decrease the risk of frostbite.

A pair of colorful, patterned socks is shown on a wooden surface. The socks are folded and feature various colors and patterns, including stripes and floral designs. The background is a rustic wooden table.

The global socks market was valued at USD 5.6 billion in 2014, expected to increase at a CAGR of 8.5% from 2015 to 2023. The overall socks market stood at a valuation of US\$5.6 bn in 2014 and is expected to be worth US\$11.6 bn by 2023.

A collection of colorful, patterned socks is displayed on a rustic wooden surface. The socks feature various designs, including geometric patterns and solid colors in shades of purple, green, red, blue, and yellow. The text is overlaid on a light-colored, textured rectangular background.

The study states that almost 70 per cent of men use socks every day. Socks are quickly growing beyond being a useful item to an apparel of fashion due to product developments, diversifications, and commercialization. Application specific customized socks are also opening new opportunities in the market.

The global socks market was valued at USD 5.6 billion in last year, expected to increase at a CAGR of 8.5% in coming year. The lower share of the socks market in the backdrop of the apparel industry can be attributed to low volume and large percentage of the market being unorganized. However, taking the market growth rate into consideration, the socks market is projected to experience robust growth during the forecast period in contrast to the apparel industry in general. The rising demand for socks is primarily driven by improving fashion trends and the growing retail sector. Thus, due to demand it is a good project for entrepreneurs to invest.

The second driver of the sports socks market is the affordable price of sports socks. While some luxury socks made of high-quality fabrics like rare animal wool can sell from \$400 to \$800 a pair, sports socks can be easily purchased for less than \$50. This makes them far more likely to be used for a variety of reasons not related to sports. While their main purpose is for sports, rigorous activities or working out at the gym, sports socks can be matched with informal footwear in a casual setting. Nearly 70% of men wear socks every day and the growth of the men's apparel industry should also provide a fillip to the overall socks and thereby sports socks market.

Few Indian Major Players are as under

- · A O V Clever Knits Pvt. Ltd.
- · Boorugu Knitts Ltd.
- · Filatex Fashions Ltd.
- · Global Knitfab Ltd.
- · Goldwon Textiles Ltd.
- · H-Lon Hosiery Ltd.
- · Imperial Garments Ltd.
- · Moza Hosier

Major Queries/Questions Answered in the Report?

- 1. What is Sweat Free and Antibacterial Socks Manufacturing industry ?**
- 2. How has the Sweat Free and Antibacterial Socks Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Sweat Free and Antibacterial Socks Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?**

- 5. What is the structure of the Sweat Free and Antibacterial Socks Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?**
- 7. What are the operating costs for setting Sweat Free and Antibacterial Socks Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?**

- 
- 9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?**
- 10. What are the requirements of raw material for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?**
- 11. Who are the Suppliers and Manufacturers of Raw materials for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?**
- 12. What is the Manufacturing Process of Sweat Free and Antibacterial Socks ?**

13. What is the total size of land required for setting up Sweat Free and Antibacterial Socks Manufacturing plant ?
14. What will be the income and expenditures for Sweat Free and Antibacterial Socks Manufacturing plant ?
15. What are the Projected Balance Sheets of Sweat Free and Antibacterial Socks Manufacturing plant ?
16. What are the requirement of utilities and overheads for setting up Sweat Free and Antibacterial Socks Manufacturing plant?
17. What is the Built up Area Requirement and cost for setting up Sweat Free and Antibacterial Socks Manufacturing Business?

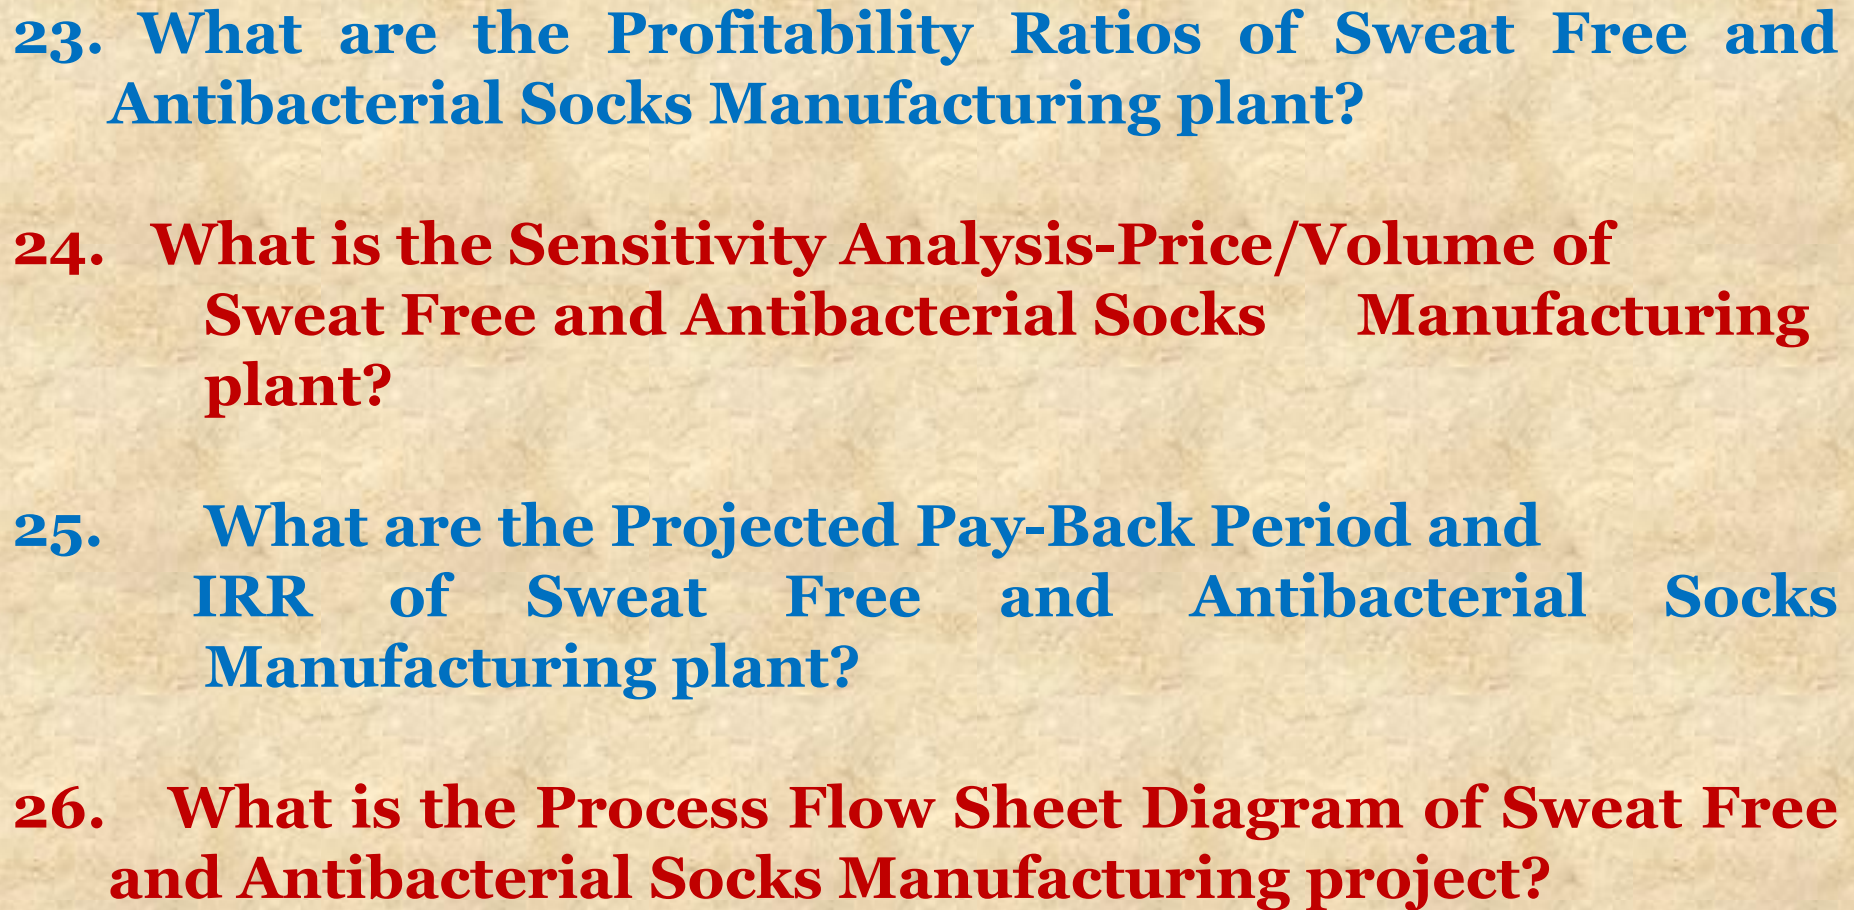

18. What are the Personnel (Manpower) Requirements for setting up Sweat Free and Antibacterial Socks Manufacturing Business?

19. What are Statistics of Import & Export Sweat Free and Antibacterial Socks?

20. What is the time required to break-even of Sweat Free and Antibacterial Socks Manufacturing plant?

21. What is the Break-Even Analysis of Sweat Free and Antibacterial Socks Manufacturing plant?

22. What are the Project financials of Sweat Free and Antibacterial Socks Manufacturing plant?

- 
- 23. What are the Profitability Ratios of Sweat Free and Antibacterial Socks Manufacturing plant?**
- 24. What is the Sensitivity Analysis-Price/Volume of Sweat Free and Antibacterial Socks Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Sweat Free and Antibacterial Socks Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Sweat Free and Antibacterial Socks Manufacturing project?**

- 
- A collection of colorful, patterned socks is scattered on a rustic wooden surface. The socks feature various designs, including geometric patterns and solid colors. The colors include purple, green, red, blue, yellow, and pink. The wooden surface has a natural grain and some knots, adding to the rustic feel of the image.
- 27. What are the Market Opportunities for setting up Sweat Free and Antibacterial Socks Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Sweat Free and Antibacterial Socks Manufacturing plant?**
- 29. What is the Plant Layout for setting up Sweat Free and Antibacterial Socks Manufacturing Business?**

A collection of colorful, patterned socks is arranged on a rustic wooden surface. The socks feature various designs, including geometric patterns, floral motifs, and solid colors. The colors include purple, green, red, pink, blue, yellow, and magenta. The wooden background has a natural grain and texture.

Reasons for buying our report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- 
- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
 - **The report provides a glimpse of government regulations applicable on the industry**
 - **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Sweat Free and Antibacterial Socks” provides an insight into the Sweat Free and Antibacterial Socks market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Sweat Free and Antibacterial Socks project. The report assesses the market sizing and growth of the Indian Sweat Free and Antibacterial Socks Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Sweat Free and Antibacterial Socks sector in India along with its business prospects. Through this report we have identified Sweat Free and Antibacterial Socks project as a lucrative investment avenue.

Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects.

Here's we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website www.entrepreneurindia.co that is "Instant Online Project Identification and Selection"

NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.

The socks are arranged in a somewhat overlapping manner, with some showing the heel and toe patches.

NIIR PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
