Industrial Areas in Rajasthan

Introduction

Rajasthan is pre-eminent in quarrying and mining in India. The state is the second largest source of cement. It has rich salt deposits at Sambhar, copper mines at Khetri and zinc mines at Dariba and Zawar.

The main industries of Rajasthan include textile, rugs, woolen goods, vegetable oil and dyes. Heavy industries consist of copper and zinc smelting and the manufacture of railway rolling stock. The other industries related to Private Sector include steel, cement, ceramics and glasswares, electronic, leather and footwear, stone and other chemical industries.

Project Opportunities in Rajasthan:

○ Mineral

Rajasthan is a mineral rich state and blessed with 79 varieties of minerals, of which 58 are being commercially exploited. State has virtual monopoly in the production of major minerals like Wollastonite, Lead-Zinc, Calcite, Gypsum, Rock phosphate, Ochre, Silver and minor minerals like Marble, Sandstone and Serpentine (Green Marble) etc., which contribute almost 90% to 100% of national production.

○ **Automotives**

The Automobile sector has seen a rapid growth in recent past, it has made Rajasthan the major Auto Production hub of the country. Due to close proximity to a major auto production, Alwar, Bhiwadi and Jaipur districts runs nearly 100 units. In Bhiwadi, a special Auto & Engineering Zone has also been developed in the Pathredi Industrial Area and another special zone is being planned. To address availability of trained manpower, particularly for Shop-floor Operations, a Tool Room & Training Centre is being planned over 10 acres here.

○ **Cement**

Rajasthan is the largest producer of cement in India. With a capacity of over 13 million tons per annum, Rajasthan accounts for over 15% of India's cement production. The cement industry in Rajasthan is witnessing significant growth in recent years. Fresh capacity aggregating over 10 MMTPA is under various stages of implementation. With the domestic demand for cement expected to grow at 8-9 per cent annually.

○ **Livestock**

Animal Husbandry is a major economic activity of the rural peoples, especially in the arid and semi-arid regions of the Rajasthan. Development of livestock sector has a significant beneficial impact in generating employment and reducing poverty in rural areas. Livestock contributes a large portion of draft power for agriculture, with approximately half the cattle population and 25 percent of the buffalo population being used for cultivation.

○ **Agriculture**

The Economy of the state of Rajasthan mainly depends on the agricultural sector for it accounts for almost 22.5% of the state's economy. In the state of Rajasthan, the total area that has been cultivated is around 20 million hectares and 20% of the area out of this is irrigated.

Rajasthan is India's largest producer of oilseeds (rapeseed & mustard), seed spices (coriander, cumin and fenugreek) and coarse cereals. The State is major producer of soybean, food grains, gram, groundnut and pulses. Rajasthan's vibrant agriculture sector offers various opportunities for the successful establishment of vibrant and potentially profitable agro-processing units.

○ **Textiles**

Textile is an important industry for Rajasthan, representing over 20 per cent of the investment made in the state. Rajasthan contributes over 7.5 per cent of Indian production of cotton and blended yarn (235,000 tons in 2002-03) and over 5 per cent of fabrics (60 million sq meters).

○ **Tourism**

Rajasthan is one of the most popular tourist destinations in India, for both domestic & international tourists. Rajasthan attracts tourist for its historical forts, palaces, art and culture. Every third foreign tourist visiting India also travel to Rajasthan as it is part of the Golden Triangle for tourists visiting India. Rajasthan Economy also depends to a very large extends on the tourism sector which accounts for almost 15% of the state's economy.

○ **Waste Management and Recycling**

Sikar is located in the North Eastern part of Rajasthan. The present population of the Town is approximately 2, 29 lakh. The quantity of solid waste generated in the town at present is 103 MT per day. The wastes generated from different sources are thrown on the roads or road sides by the generators. Only about 60-70% waste are collected by the urban local body (ULB).

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)
