Profitable Manufacturing

Business of Aluminum

Beverage Cans.

Aluminium Cans for Brewery.

Beverage Can Manufacturing

Project.

Introduction

Aluminum cans provide long-term food quality preservation benefits. Aluminum cans deliver 100 percent protection against oxygen, light, moisture and other contaminants. The first generation of aluminum cans weighed approximately 3 ounces per unit. Today's cans weigh less than half an ounce. Aluminum cans bring packaging benefits as well. They are easily formed, resist corrosion and will not rust. Cans made from aluminum easily support the carbonation pressure required to package soda and withstand pressures of up to 90 pounds per square inch.

Aluminum beverage cans are every day commodities that people come across on a regular basis, whether it's while they are grocery shopping, taking their lunch break, or pondering in front of a vending machine.

The aluminium beverage can is now the popular choice for carbonated and still soft drinks, mineral waters, beers and lagers. It competes successfully against drinks containers of glass, plastic and steel, and is the only drinks container for which closed loop recycling applies; a used aluminium drinks can is recycled back into aluminium can sheet for the manufacture of another aluminium drinks can.

Advantages of Aluminium Can

The various advantages that make it a choice material are:

- **Light Weight:** its light weightness makes aluminium containers easy to transport, carry and store.
- **Impermeable:** The containers made from aluminium are impermeable to odor, gases or water vapor.
- **The containers do not impart any metallic odor or taste to the containers.**

- **The aluminium containers, stack-up well against other beverage containers. They occupy less space to carry same volume of contents when compared to glass bottles.**
- **The aluminium cans have no bottom or side seams, thus minimizing chances for leakages.**
- **It has high strength to weight ratio.**
- **The cans can be made tamper proof.**
- **In certain cases, such as dairy products, internal lacquering is not necessary.**

- **It is a good conductor of heat, which means heating, or chilling is quick and efficient.**
- **It shows quite corrosion resistance.**
- **It offers excellent recycling property.**

Market Outlook

Increasing consumption of beverages coupled with the rising need for convenience is driving the market for beverage packaging in India. The Indian beverage packaging market is exhibiting robust growth with sustainable packaging being the need of the hour. Beverages accounted for 21% of the total consumer packaging market in 2014. Demand for consumer packaging from the beverage sector is expected to grow marginally ahead of other user sectors at around 12% till 2017.

The beverage cans market size was valued at USD 39.19 billion in 2015 and is expected to witness significant growth over the forecast period primarily owing to superior cooling properties and storage space reduction by using advanced materials in beverage cans manufacturing. The industry is expected to witness high growth owing to increasing consumption of alcoholic beverages such as beer and cider which are required to cooled at a specific temperature for enhanced taste.

U.S. Beverage Cans Market Volume, By Application, 2013 - 2024 (Billion Cans)

The packaging industry in India is estimated to reach \$73 billion by 2020, from \$32 billion in 2015, says a study by Federation of Indian Chambers of Commerce & Industry (Ficci) and Tata Strategic Management Group. The country's packaging industry is set to register 18 per cent growth, year-on-year with sub-sectors like flexible packaging and rigid packaging to grow annually at the rate of 25 per cent and 15 per cent respectively.

India's packaging industry size is very miniscule with only four per cent share of the global industry. Per capita packaging consumption in India is also low at 4.3 kg compared to 42 kg in Germany and 19 kg in Taiwan. But, with the boom in organized retail and e-commerce, packaging is set to get an enormous boost.

The global beverage cans market size is expected to reach USD 60.92 billion by 2024, according to a new report by Grand View Research, Inc. owing to increasing demand for compact beverage packaging solutions.

Few Indian Major Players are as under

- **Bharat Containers (Nagpur) Pvt. Ltd.**
- **Hindustan Tin Works Ltd.**
- **Kandhari Beverages Pvt. Ltd.**
- **Punsumi Foils & Components Ltd.**
- **Zenith Tins Pvt. Ltd.**

Major Queries/Questions Answered in the Report?

- 1. What is Aluminum Can Production industry ?**
- 2. How has the Aluminum Can Production Core industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Aluminum Can Production Plant ?**
- 4. What are the requirements of Working Capital for setting up Aluminum Can Production plant ?**

- 5. What is the structure of the Aluminum Can Production Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Paper Aluminum Can Production?**
- 7. What are the operating costs for setting up Aluminum Can Production plant ?**
- 8. What are the machinery and equipment requirements for setting up Aluminum Can Production plant ?**

- 9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Aluminum Can Production plant ?**
- 10. What are the requirements of raw material for setting up Aluminum Can Production plant ?**
- 11. Who are the Suppliers and Manufacturers of Raw materials for setting up Aluminum Can Production Business ?**
- 12. What is the Manufacturing Process of Aluminum Can Production plant ?**

- 13. What is the total size of land required for setting up Aluminum Can Production plant ?**
- 14. What will be the income and expenditures for Aluminum Can Production plant ?**
- 15. What are the Projected Balance Sheets of Aluminum Can Production Business?**
- 16. What are the requirement of utilities and overheads for setting up Aluminum Can Production plant?**
- 17. What is the Built up Area Requirement and cost for setting up Aluminum Can Production Business?**

- 18. What are the Personnel (Manpower) Requirements for setting up Aluminum Can Production Business?**
- 19. What are Statistics of Import & Export for Aluminum Can?**
- 20. What is the time required to break-even of Aluminum Can Production Business?**
- 21. What is the Break-Even Analysis of Aluminum Can Production plant?**
- 22. What are the Project financials of Aluminum Can Production Business?**

- 23. What are the Profitability Ratios of Aluminum Can Production plant?**
- 24. What is the Sensitivity Analysis-Price/Volume of Aluminum Can Production plant?**
- 25. What are the Projected Pay-Back Period and IRR of Aluminum Can Production Business?**
- 26. What is the Process Flow Sheet Diagram of Aluminum Can Production project?**

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Aluminium Cans for Brewery” provides an insight into the Aluminum Can Production market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Aluminum Can Production project. The report assesses the market sizing and growth of the Indian Aluminum Can Production Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Aluminum Can Production sector in India along with its business prospects. Through this report we have identified Aluminum Can Production project as a lucrative investment avenue.
