Introduction

The industry in Goa has emerged as one of favorable destination for investment. Being both investor-friendly as well as environment -friendly, Goa has one of the highest per capita income ratios in the country, one of the highest literacy rates, the highest road, rail, air and sea network density, the lowest crime rates, and a harmonious trade union-management relationship. All these factors, combined, contribute towards a healthy environment for the industry in Goa. Goa is strategically located with good infrastructure facilities with a centrally located airport, a seaport, connectivity by excellent road network as also other essential infrastructure like Container Freight Station etc.

It's extremely efficient and useful sea network, export too forms a major industry in Goa; thus rendering the operations conducted by the Mormugao Port Trust a profitable one. Mormugao Port was declared a Major Port. It is one of the oldest ports on the west coast of India. It is a major iron ore exporting Port of India with an annual throughput of around 18 million tones of iron ore. The Port accounts for about 50% of India's iron ore export. Apart from ore, there has also been a steady increase in liquid bulk and general cargo traffic since 1963.

Goa has a well-developed social, physical and industrial infrastructure and virtual connectivity. The state is highly dependent on foreign exchange, which has helped fuel the growth of resorts, helped in state beautification, hotels and other businesses related to tourism.

■ Agriculture

The major food crops in the State are rice, paddy, maize, jawar, bajra and ragi. While, main cash crops are coconut, cashew nut, arecanut, sugarcane and fruits like pineapple, mango and banana. Out of the total geographical area of 3702 sq km, the State has a rich forest cover of about 1424.46 sq km. Of this, 1224.46 sq km has been classified as Government forest (of which about 62% has been brought under Protected Areas (PA) of Wildlife Sanctuaries and National Parks) and the rest as private forests.

▪ Fisheries and Aquaculture Sector

Fishing is another traditional and important economic activity of the State. Goa, being located on the west coast of India, has a coastline extending over 100 Km and inland waterways of another 250 Km, rich in marine wealth. Prawns, the valuable foreign exchange earner, mackerels, sardines, etc. are available in plenty in Goa coast. Fish is a protein rich food. It forms a chief component in the diet of about 90% of the population of Goa. Capture fisheries of Goa (India) constitute a highly productive sector. They remain one of the major sources of valuable food and employment and a net contributor in the foreign exchange earnings.

Tourism

Tourism in India is the largest service industry, with a contribution of 6.23% to the national GDP and 8.78% of the total employment in India. Tourism has become an important industry in many countries of the world, both in the east and the west. Various initiatives are being taken by the Government and other organizations to promote tourism here. Tourism is one of the fastest growing industries in the world.

▪ Mineral and Mining

The State of Goa is a tiny emerald land on the west coast of the Indian Peninsula. The rich and varied mineral resources of the State have contributed handsomely towards the development and industrialization of the State. The State of Goa has an important position in the Mineral Map of the Country. The production of iron ore accounts to about 13% of the iron ore production in India and its exports accounts to about 35% of the Country exports. The State of Goa is endowed with Mineral Resources. Iron ore, Manganese ore, Bauxite are minerals of economic importance.

▪ Waste Management and Recycling

Goa produces around 300 tonnes of garbage, but with municipal bodies. The proliferation of plastic wastes in the urban and village environments of Goa, and the abysmally hopeless and inadequate arrangements of municipalities and authorities for the disposal of this plastic litter, are subjects which many environment NGOs and citizens have expressed anguish over right from the inception of the Goa Environment Federation (GEF). Goa receives around 2 million of domestic and international tourists per year.

Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on

Best Profitable Manufacturing & Processing Business Ideas in Goa, India to Start. Small and Medium Projects.

➤ Chilli Oil

Spices are used for flavour, colour, aroma and preservation of food or beverages. Spices may be derived from many parts of the plant: bark, buds, flowers, fruits, leaves, rhizomes, roots, seeds, stigmas and styles or the entire plant tops....[Read more](#)

Major Queries/Questions Answered in our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for buying our report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

NIIR PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
