

Want to Start Business in Mizoram?

Here are few Good Profitable Ideas for You.

Mizoram

www.entrepreneurindia.co

Introduction

Major Cities in Mizoram:

- Aizawl
- Darlawn
- Khawhai
- Kolasib
- Lunglei
- Mamit
- North Vanlaiphai

- Saiha
- Sairang
- Saitlaw
- Serchhip
- Thenzawl

The state of Mizoram is popularly known as the songbird of India and is one of the smallest states in the country. The name Mizoram signifies the land of the Lushai highlanders. It is located in the southern corner of Northeast India nestled mainly between Myanmar and Bangladesh, but also shares a part of its boundaries with its neighboring states of Assam, Manipur and Tripura. The hilly region of Mizoram was previously a part of Assam but was later made a separate state. It is a diverse land with mountains and valleys as well tribal villages and urban centers with modern culture and lifestyle unlike elsewhere in India.

Industries in the state enjoy a unique location-specific advantage. Bordering Myanmar and Bangladesh, Mizoram offers a gateway for engaging in international trade with Southeast Asian countries. With improving road, rail and air connectivity and the establishment of trade routes with neighbouring countries, trade facilitation has improved over the last decade.

With 31 per cent (6,446 sq km) of its geographical area covered by bamboo forests, the state is one of the leading producers of bamboo in India, contributing 14 per cent to the country's bamboo stock. It offers immense potential for commercial exploitation of the natural resources for export-oriented industries.

The climatic conditions in the state provide a conducive breeding ground for commercial exploitation of all kinds of silkworms. Sericulture remains one of the state's key industries. During 2015-16, a total of 5,054 farmers from 176 villages were engaged in sericulture across land area of 5,293 hectares.

Mizoram has abundant hydro-electric power potential (around 4,500 MW) with just 0.7 per cent harnessed through small and mini-hydel projects to date. As of June 2016, Mizoram had a total installed power generation capacity of 119.52 MW (comprising 36.47 MW from state utilities and 82.95 MW from central utilities). Renewable power and thermal power contributed 36.57 MW and 48.64 MW respectively.

Project Opportunities in Mizoram:

☐ TOURISM

Mizoram, the Land of the Highlanders, is sandwiched between Myanmar, Bangladesh and the states of Tripura, Assam and Manipur. The rivers, peaks, plains and the lakes are the treasures of Mizoram. It is full of high ranges running from north to south covered by greenery throughout the year. The Mizoram State Government begins to recognize tourism as an important sector of the economy which needs to be developed for greater income generation. More emphasis on sustainable eco-tourism, adventure tourism, village tourism and rural tourism would bring in high - value tourism. With the increase of tourist the need for budget hotels has been acutely felt.

Tourism Department in Mizoram is also one of the fastest growing Departments in Mizoram. The Department has achieved these objectives by constructing Tourist Lodge, Tourist Resort and other Tourist amenities in difference places of Mizoram through liberal financing of Ministry of Tourism, Government of India.

□ FOREST-BASED INDUSTRIES

The vast bamboo and other forest resources of Mizoram will be optimally harvested for setting up of Industry for manufacturing of various high value bamboo and other forest based products.

☐ FOOD PROCESSING INDUSTRIES

Primary production of various food items, whether agricultural based, horticultural or livestock based will be linked with processing Industries.

☐ HANDLOOM INDUSTRIES

Handloom sector will continue to receive serious attention of the Govt. Utmost importance will be given for improving quality product by introducing improved design, packaging, branding.

☐ HANDICRAFT INDUSTRIES

The traditional skill of Mizo people will be upgraded and diversified for market competitiveness of handicraft products.

□ PLANTAIN FIBRE AND HILL BROOMS

The Govt. will encourage value addition of hill-brooms. The flow of raw and unprocessed broom outside the state will be discouraged by giving attention towards value addition to help local industry.

| Www.entrepreneurindia.co

☐ TEXTILE RELATED INDUSTRIES

Bulk production of readymade garments will be encouraged as this sector is having good potential for market outside the state and export.

☐ ANIMAL FEED AND POULTRY FEED INDUSTRIES

The Government is giving thrust towards having sufficient meat and meat products for which farming has been encouraged.

Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Required Project Want to Start Business in Mizoram? Here are few Good Profitable Ideas for You.

Few Project for Startup:

> MAIZE PROCESSING UNIT

Maize is one of the best cereals after paddy and wheat. It is largely cultivated in the north and west India, though there is cultivation of maize in the eastern and southern India. There are basic commercial product maize hull, maize oil, zein, maize starches are obtained directly from maize......Read more

> PRECIPITATED SILICA FROM RICE HUSK ASH

Precipitated silica (also called particulate silica) is compound of aggregates of ultimate particles of colloidal size that have not become linked in massive gel network during the preparation process.....Read more

> THERMOCOLE (EPS) CUP, GLASS & PLATES

Thermocole or expanded polystyrene as the name suggests, is polystyrene expanded to more than two times the volume of polystyrene. Polystyrene foam is an excellent packaging material because of combination of various properties such as lightness, rigidity, shock absorption, thermal insulation, resistance to moisture, snow white colour etc.....Read more

> LIQUID GLUCOSE FROM RICE

Rice is basically sources of starch content little amount of fat and protein in it. It contains also vitamins and minerals. Basic raw materials required for the production of liquid glucose are rice grains, enzymes, sulfuric acid etc. which are largely available in India.....Read more

> GINGER CULTIVATION & STORAGE

Ginger is mentioned in the early literature of China and India as a spice. Thus it is one of the earliest of known spices. It is also used for medicinal purpose. Major ginger producing areas of the world are India, Malayasia, China, West Africa and the West Indies.....Read more

> FRUIT JUICE IN ASEPTIC PACKAGING

Fruit juice in aseptic packaging is basically used to quench the thirst and to get refreshment. In aseptic packaging juice can be preserved for 6 months or more. It is convenient to use, easy to sip and a source of minerals and vitamins......Read more

> CUT ROSE FLOWER (FLORICULTURE)

Floriculture, or flower farming, is a discipline of horticulture concerned with the cultivation of flowering and ornamental plants for gardens and for floristry, comprising the floral industry. The development, via plant breeding, of new varieties is a major occupation of floriculturists......Read more

> CURCUMIN FROM TURMERIC

Turmeric (Curcuma longa) is native to Asia and India. The tuberous rhizomes or underground stems of turmeric are used from antiquity as condiments, a dye and as an aromatic stimulant in several medicines......Read more

> ACTIVATED CARBON FROM BAMBOO

Activated carbon is a non-graphite form of carbon and is microcrystalline in nature. It is extensively used in various industries as a very good absorbent for odour or colour. A large variety of raw materials are available for the manufacture of activated carbon like rice husk, groundnut husk, coconut shell, saw dust, bagasse, wood and bamboo etc......Read more

BAMBOO FURNITURE

The bamboos are a group of woody perennial evergreen (except for certain temperate species) plants in the true grass family Poaceae, subfamily Bambusoideae, tribe Bambuseae. Some are giant bamboos, the largest members of the grass family.....Read more

> DISPOSABLE PAPER PLATE

Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposables items are made with easily degradable materials which are manmade products like paper from wood pulp, biomass etc....Read more

> INTEGRATED SERICULTURE

India is second largest producer of silk. Sericulture industry is looking out for the developments of young age silk worm rearing or chawki rearing. Care of silk worms start from the stage of procurement of silk worm eggs from the grainage itself......Read more

FISH FARMING

A larger part of the average family's food bill goes on protein foods e.g. cheese, eggs and fish etc., which are important parts of a healthy and well-balanced diet. Now-a-days people are turning to fresh-water fish such as rainbow trout, carps and tench, which can die raised in ponds and ornamental garden pots.....Read more

> PESTICIDES

Pesticides are substances meant for attracting, seducing, destroying or mitigating any pest. They are a class of biocide. The most common use of pesticides is as plant protection products (also known as crop protection products), which in general protect plants from damaging influences such as weeds, diseases or insects......Read more

> DISPOSABLE PLASTIC CUPS, PLATES & GLASSES

The plastic industry in India plays a very important and key role in Industrializations. A wide spectrum of plastics and articles manufactured by the industry has touched the life of every Indian in many ways through consumer plastics. The disposable plastic cups are manufactured by thermoforming technique....Read more

> FIVE STAR HOTEL & BUSINESS SHOPPING MALL

Five star hotel contents business center by making luxurious shops inside the hotel for selling consumer goods, articles and beverages, is wonderful combination for profit making center. Again if there is facility of P.V.R., health club, and banquet hall attract the tourist much more in that hotel......Read more

> TEA PACKAGING UNIT (BLENDING AND PACKING)

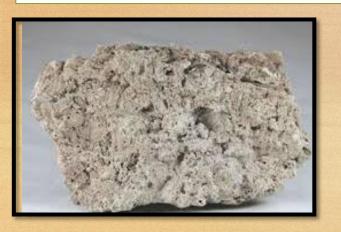

India is the largest producer of tea in the world. The (camellia SPP.) Is an important beverage and the world drinks more than any other beverage. It buds of the evergreen tea-plant, which is popularly acclaimed as a healthful herbs......Read more

> PRODUCTION OF DIFFERENT GRADES OF LIME FROM LIMESTONE (TECHNICAL GRADE LIME, REFRACTORY GRADE LIME, AGRICULTURE GRADE LIME, FCC GRADE LIME)

Lime is manufactured from lime stone. Lime is mainly used for manufacture of hydrated lime. Hydrated lime is a dry powder obtained by treating quick lime with water. It consists essentially of calcium hydroxide and some magnesium hydroxide.....Read more

> TEXTILE WEAVING MILL

The textile industry occupies a leading position in the hierarchy of the Indian manufacturing industry. It has witnessed several new directions in the era of liberalisation. While textile exports are increasing and India has become the largest exporter in world trade in cotton yarn and is an important player of readymade garments, country's international textile trade constitutes a mere 3% of the total world textile trade.....Read more

> SOLAR PANEL

A solar panel is a collection of solar cells. Lots of small solar cells spread over a large area can work together to provide enough power to be useful. The more light that hits a cell the more electricity it produces, so spacecraft are usually designed with solar panels that can always be pointed at the Sun even as the rest of the body of the spacecraft moves around, much as a tank turret can be aimed independently of where the tank is going....Read more

> E-WASTE RECYCLING PLANT

Electronic waste, e-waste, e-scrap, or Waste Electrical and Electronic Equipment (WEEE) is a loose category of surplus, obsolete, broken, or discarded electrical or electronic devices.....Read more

> LED LIGHT ASSEMBLING

A light emitting diode (LED) is a device which converts electrical energy in to light. LEDs are preferred light sources for short distance (local area) optical fiber network because they are inexpensive, robust and have long life (the long life of an LED is primarily due to its being a cold device, i.e. its operating temperature being much lower than that of, say, an incandescent lamp), can be modulated (i.e. switched on and off) at high speeds....Read more

> BISCUIT MAKING PLANT

Biscuit industry in India in the organized sector produces around 60% of the total production, the balance 40% being contributed by the unorganized bakeries.....Read more

> BREAD MAKING PLANT

In modern days bread is now becoming one of the most essential food item in human diet due to its readymade availability and high nutritive value. It is the most consumable wheat based bakery product.....Read more

> BAKERY INDUSTRY

Bakery is one of the oldest among the food processing activities. An estimated 78,000 bakeries operate in India. The production of bread is estimated at 11.5 lakhs tonnes and biscuits at 7.8 lakhs tonnes....Read more

> SANITARY NAPKIN & BABY DIAPERS

A diaper or nappy is a kind of underwear that allows one to defecate or urinate in a discreet manner. Diapers are primarily worn by children who are not yet potty trained or experience bedwetting.....Read more

ELECTRIC MOTORS

The extensive utilization of many types of constructional variants of electric motors in industry, commerce and the home would make a comprehensive guide for their selection, application and maintenance runs into many pages.....Read more

> MOSQUITO REPELLENT LIQUIDATOR

There are some essential oils which have property to repellant of mosquito. Mosquitoes cannot bear the flavour of essential oil though they do not die but they run away. Raw material required for manufacturing of essential oils are easily available in the market.....Read more

> SOLAR PANEL ASSEMBLING & SOLAR POWER INVERTER ON GRID, OFF GRID WITH SOLAR PUMP CONTROLLER

A solar cell, sometimes called a photovoltaic cell, is a device that converts light energy into electrical energy. Solar panels generate free power from the sun by converting sunlight to electricity with no moving parts, zero emissions, and no maintenance.....Read more

> SCHOOL (CBSE PATTERN)

The importance of education was well recognized in India, 'Swadeshepujyate raja, vidwansarvatrapujyate' "A king is honoured only in his own country, but one who is learned is honoured throughout the world." A school is an institution designed to provide learning spaces and learning environments for the teaching of students under the direction of teachers.....Read more

> PROTEIN BAR

Protein bars, which contain some form of milk-derived or plant-based protein like whey, hemp, pea or rice protein. Protein bars are usually lower in carbs than energy bars, lower in vitamins and dietary minerals than meal replacement bars, and significantly higher in protein than either......Read more

> MEDICAL COLLEGE WITH HOSPITAL (750 BEDDED)

A medical college is meant to impart education of medical field to students to qualify them as doctors in different specialized disciplines so as to treat patients suffering from various ailments.....Read more

> BICYCLE MANUFACTURING

Bicycles are one of the oldest forms of transportation. Even today millions of people travel by bicycle daily to their work, college, universities and distant places. Today there are different types of cycle for different kind of cycling experiences. No matter what type of cycle you choose be it a mountain bicycle, road bicycle, hybrid bicycle or transporting bicycle basic bicycle spare parts are the same......Read more

> BAKER'S YEAST

Baker's yeast is the common name for the strains of yeast commonly used as a leavening agent in baking bread and bakery products, where it converts the fermentable sugars present in the dough into carbon dioxide and ethanol. Yeast is single-celled fungi.....Read more

> PVC PIPES

PVC pipes are produced by extrusion process followed by calibration to ensure maintenance of accurate internal dia with smooth internal boxes. These pipes generally come in lengths of 6 meters. A wide range of injection moulded fittings, including tees, elbows, reducers, caps, pipes saddles, inserts and threaded adaptors for pipe sizes 15-150 mm are available.....Read more

> PIPE BOND (PVC, UPVC & CPVC) WITH THINNER, ROSIN & PHENYL MANUFACTURING

A thinner is a solvent used to thin oil-based paints or clean up after their use. Commercially, solvents labeled "Paint Thinner" are usually mineral spirit shaving a flash point at about 40 °C (104 °F).....Read more

> ALUMINIUM COLLAPSIBLE TUBES

> POWER TRANSFORMER

A transformer is a device that transfers electrical energy from one circuit to another through inductively coupled conductors—the transformer's coils. If a load is connected to the secondary, current will flow in the secondary winding, and electrical energy will be transferred from the primary circuit through the transformer to the load......Read

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?
- 2. What is the Project Feasibility of the Plant?
- 3. What are the requirements of Working Capital for setting up the plant?
- 4. What is the structure of the industry and who are the key/major players?

- 5. What is the total project cost for setting up the plant?
- 6. What are the operating costs for setting up the plant?
- 7. What are the machinery and equipment requirements for setting up the plant?
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?
- 9. What are the requirements of raw material for setting up the plant?

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?
- 11. What is the Manufacturing Process of the plant?
- 12. What is the total size of land required for setting up the plant?
- 13. What will be the income and expenditures for the plant?
- 14. What are the Projected Balance Sheets of the plant?

- 15. What are the requirement of utilities and overheads for setting up the plant?
- 16. What is the Built up Area Requirement and cost for setting up the plant?
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?
- 18. What are Statistics of Import & Export for the Industry?
- 19. What is the time required to break-even?

- 20. What is the Break-Even Analysis of the plant?
- 21. What are the Project financials of the plant?
- 22. What are the Profitability Ratios of the plant?
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?
- 24. What are the Projected Pay-Back Period and IRR of the plant?
- 25. What is the Process Flow Sheet Diagram of the plant?
- 26. What are the Market Opportunities for setting up the plant?
- 27. What is the Market Study and Assessment for setting up the plant?
- 28. What is the Plant Layout for setting up the plant?

Reasons for Buying Our Report:

- The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- The report provides vital information on the product like it's characteristics and segmentation
- The report helps you market and place the product correctly by identifying the target customer group of the product

- The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- The report provides a glimpse of government regulations applicable on the industry
- The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions

Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more

Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

NIIR PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad

What do We Offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Business Plan
- Market Research Reports
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- O Entrepreneur India (An Industrial Monthly Journal)

How are We Different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
