

Want to Start Business in Nagaland?

**Here are few Good Profitable
Ideas for You.**

Introduction

Major Cities in Nagaland:

- **Dimapur**
- **Kiphire**
- **Kohima**
- **Longleng**
- **Mokokchung**
- **Mon**
- **Peren**
- **Phek**

- **Tuensang**
- **Wokha**
- **Zunheboto**
- **Soma**

The mountainous state of Nagaland is located on the eastern boundary of Northeast India bordering the Kingdom of Myanmar and remains home to the sixteen Naga tribes, each with distinct culture, tribal traditions and language. It is a land of festivals and folklore that have been passed down for generations. Nagaland has always attracted numerous visitors and curious anthropologists from around the world, who have come to learn more about the tribal lifestyles of these once-headhunters. Nagaland hosts the popular Hornbill Festival every year in December, which is one of the biggest tourism event in the Indian subcontinent. Nagaland is one of India's smallest states, with a total area of 16,579 sq km (6400 sq mi). The terrain is mountainous, thickly wooded, and cut by deep river valleys. There is a wide variety of plant and animal life. Nagaland has a monsoon climate with generally high humidity; rainfall averages between 1800 to 2500 mm (70 to 100 inches) a year.

Niir Project Consultancy Services (NPCS) can provide Detailed
Project Report on Required Project

Want to Start Business in Nagaland? Here are
few Good Profitable Ideas for You.

❑ MINERAL BASED INDUSTRY

Nagaland is rich in mineral resources. The exploration carried out by the State Geology and Mining Department as well as by other Central Agencies such as Geological Survey of India, Oil and Natural Gas Corporation Ltd., etc. have established several mineral reserves. There is urgent need for enhancing the pace of exploration especially for untapped potential for hydro-carbon deposits and metallic deposits, by infusing both the latest technology and required funds from domestic and foreign investors. the huge reserves of more than 1000 million tonnes of high chemical grade limestone in the Eastern Nagaland is a major prospect for setting up of mineral resource based industries.

□ HANDLOOM AND HANDICRAFTS

Handicrafts and handloom sector in Nagaland have vast potential for growth due to the availability of abundant skilled labor and raw materials, as well as due to rich cultural traditions of its people. Nagas are inherently skilled people and their handicrafts and handloom products are well known for the beauty and intricacies of work. These products have widespread appeal and demand in the domestic as well as offshore markets. The natural skills of Nagas lie in basketry, pottery, cultivation, spinning and weaving, carving, dyeing metal work, etc. The colorful shawls, bags and jackets woven by Nagas are extremely popular.

❑ FORESTS

Nagaland is endowed with rich forest resources including various types of flora and fauna. About 20% of the total geographical area is under the cover of tropical and sub-tropical evergreen forests - including palms, bamboo and rattan as well as timber and mahogany forests.

❑ MINERALS

Nagaland is rich in mineral resources including coal, limestone, iron, nickel, cobalt, chromium, and marble. But these are yet to be explored.

□ AGRO-BASED INDUSTRIES

Nagaland has basically an agricultural economy. Over 70% of the population is dependent on agriculture. The main crops are rice, millet, maize and pulses. Cash crops like sugarcane and potato are also becoming popular. Coffee, cardamom and tea are grown as plantation crops in Nagaland.

Few Projects for Startups:

❖ PRECIPITATED SILICA FROM RICE HUSK ASH

Precipitated silica (also called particulate silica) is compound of aggregates of ultimate particles of colloidal size that have not become linked in massive gel network during the preparation process.....[Read more](#)

❖ CEMENT FROM RICE HUSK

Rice husk gives a good quality of pozzolanic ash containing silica, which is considered a good substitute for cement. It is prepared by first burning husk to form ash and then mixing it with lime and grinding it to a very fine powder.....[Read more](#)

❖ DISPOSABLE PLASTIC CUPS, PLATES & GLASSES

The plastic industry in India plays a very important and key role in Industrializations. A wide spectrum of plastics and articles manufactured by the industry has touched the life of every Indian in many ways through consumer plastics. The disposable plastic cups are manufactured by thermoforming technique.....[Read more](#)

❖ DALL MILL (PULSES)

Pulses are the most common diet part of Indian families and are the main sources of proteins. The important parts of pulses play as a source of dietary protein, energy, minerals and vitamins for the predominantly vegetarian population of India, needs no reiteration and nutritionists regard pulses as an essential means to correct malnutrition.....[Read more](#)

❖ MAIZE CULTIVATION & ITS PRODUCTS

Amongst cereal crops of India, Maize ranks fifth in area and third in production and productivity. During last year 11.2 million tons grain production was realized in an area of 6.2 million hectare more or less constant in the last one decade....[Read more](#)

❖ SOLAR PANEL

A solar panel is a collection of solar cells. Lots of small solar cells spread over a large area can work together to provide enough power to be useful. The more light that hits a cell the more electricity it produces, so spacecraft are usually designed with solar panels that can always be pointed at the Sun even as the rest of the body of the spacecraft moves around, much as a tank turret can be aimed independently of where the tank is going.....[Read more](#)

❖ E-WASTE RECYCLING PLANT

Electronic waste, e-waste, e-scrap, or Waste Electrical and Electronic Equipment (WEEE) is a loose category of surplus, obsolete, broken, or discarded electrical or electronic devices.....[Read more](#)

❖ LIQUID GLUCOSE FROM MAIZE

The maize also called corn or Indian corn is widely cultivated in India. Maize ranks high among the four or five principal cereal crops of the world. Maize is utilized in more diversified ways than any other cereal.....[Read more](#)

❖ SUGARCANE JUICE PRESERVATION

Sugarcane juice is a very delicious drink during summer, contains many minerals and has nutritive value. It is a major constituent of glucose and sugar. Glucose being a major stamina-enhancer, sugarcane juice is a pure and natural refreshment and is available in every town and city.....[Read more](#)

❖ COFFEE PLANTATION

The genus comprises 50-60 species of shrubs or small trees indigenous to tropical Africa and Asia. Among them 4 or 5 species are important as sources of commercial coffee. In India coffee is grown mostly in the south on the foothills of the Western Ghats and its out crops, from Kadur District in the state of north to Travancore in south.....[Read more](#)

❖ DISPOSABLE PAPER PLATE

Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposables items are made with easily degradable materials which are manmade products like paper from wood pulp, biomass etc....[Read more](#)

❖ POTATO STARCH

Potato is widely consumed as food all over the world. It contains the starch as a major carbohydrate. Surplus and cull potatoes are used as feed for livestock and also as raw material for the manufacture of starch, ethyl alcohol and few other industrial products like, dextrose, liquid glucose etc.....[Read more](#)

❖ LED LIGHT ASSEMBLING

A light emitting diode (LED) is a device which converts electrical energy in to light. LEDs are preferred light sources for short distance (local area) optical fiber network because they are inexpensive, robust and have long life (the long life of an LED is primarily due to its being a cold device, i.e. its operating temperature being much lower than that of, say, an incandescent lamp), can be modulated (i.e. switched on and off) at high speeds....[Read more](#)

❖ POTATO POWDER, FLAKES AND PELLETS

The powder of potato is known for sustaining millions of lives by providing food and nutrition during distress times. Its great taste makes potato one of the most important food crops in the world. In India, potatoes are grown in winter under short-day conditions potato powder flakes and pellets are processed potato.....[Read more](#)

❖ BISCUIT MAKING PLANT

Biscuit industry in India in the organized sector produces around 60% of the total production, the balance 40% being contributed by the unorganized bakeries.....[Read more](#)

❖ BREAD MAKING PLANT

In modern days bread is now becoming one of the most essential food item in human diet due to its readymade availability and high nutritive value. It is the most consumable wheat based bakery product.....[Read more](#)

❖ BAKERY INDUSTRY

Bakery is one of the oldest among the food processing activities. An estimated 78,000 bakeries operate in India. The production of bread is estimated at 11.5 lakhs tonnes and biscuits at 7.8 lakhs tonnes....[Read more](#)

❖ **SANITARY NAPKIN & BABY DIAPERS**

A diaper or nappy is a kind of underwear that allows one to defecate or urinate in a discreet manner. Diapers are primarily worn by children who are not yet potty trained or experience bedwetting.....[Read more](#)

❖ ELECTRIC MOTORS

The extensive utilization of many types of constructional variants of electric motors in industry, commerce and the home would make a comprehensive guide for their selection, application and maintenance runs into many pages.....[Read more](#)

❖ MOSQUITO REPELLENT LIQUIDATOR

There are some essential oils which have property to repellant of mosquito. Mosquitoes cannot bear the flavour of essential oil though they do not die but they run away. Raw material required for manufacturing of essential oils are easily available in the market.....[Read more](#)

❖ SOLAR PANEL ASSEMBLING & SOLAR POWER INVERTER ON GRID, OFF GRID WITH SOLAR PUMP CONTROLLER

A solar cell, sometimes called a photovoltaic cell, is a device that converts light energy into electrical energy. Solar panels generate free power from the sun by converting sunlight to electricity with no moving parts, zero emissions, and no maintenance.....[Read more](#)

❖ SCHOOL (CBSE PATTERN)

The importance of education was well recognized in India, ‘Swadeshepujyate raja, vidwansarvatrapujyate’ “A king is honoured only in his own country, but one who is learned is honoured throughout the world.” A school is an institution designed to provide learning spaces and learning environments for the teaching of students under the direction of teachers.....[Read more](#)

❖ **CARDAMOM OIL**

Cardamom oil is an essential spice oil. It has very good flavour and large end use in the pharmaceutical industry, cosmetic industry, food industries etc. Cardamom is one of the spice article which is largely cultivated in south India. For the production of oil, there is steam distillation apparatus required.....[Read more](#)

❖ HERBAL COSMETICS

The growing environmental concern of the last decade and more has also shifted the focus to the use of ecologically friendly products which has in turn, spurred the cosmetic industry to look for alternative. The use of herbs for medicinal and cosmetic purposes goes back to ancient times in our country.....[Read more](#)

❖ PROTEIN BAR

Protein bars, which contain some form of milk-derived or plant-based protein like whey, hemp, pea or rice protein. Protein bars are usually lower in carbs than energy bars, lower in vitamins and dietary minerals than meal replacement bars, and significantly higher in protein than either.....[Read more](#)

❖ MEDICAL COLLEGE WITH HOSPITAL (750 BEDDED)

A medical college is meant to impart education of medical field to students to qualify them as doctors in different specialized disciplines so as to treat patients suffering from various ailments.....[Read more](#)

❖ **TEA PROCESSING AND PACKAGING**

Tea is one of the most popular beverages and is consumed by nearly half of the world population. Tea growing & processing is one of the major plantation based industries in India & plays a vital role in India's economy. It is the largest employer of organised labour in private sector.....[Read more](#)

❖ MUSTARD OIL

Mustard/Rapeseed oil is the third largest edible oil produced in the world after Soy oil and Palm oil. At a production level of 13-14 million tons, it accounts for about 12% of the total World's edible oil production. India is estimated to have a total mustard seed output of 5 million ton while oil is around 1.3 million tons.....[Read more](#)

❖ HERBS PLANTATION (MEDICINAL)

Every herbal plant have its own specific use for the production of specific drugs from specific herb. The only countries in the world with significant prescription sales of herbal medicines are China, India, Japan and Germany. Most sales of herbal medicine in North America and Europe are of over the country.....[Read more](#)

❖ PVC PIPES

PVC pipes are produced by extrusion process followed by calibration to ensure maintenance of accurate internal dia with smooth internal boxes. These pipes generally come in lengths of 6 meters. A wide range of injection moulded fittings, including tees, elbows, reducers, caps, pipes saddles, inserts and threaded adaptors for pipe sizes 15-150 mm are available.....[Read more](#)

❖ PIPE BOND (PVC, UPVC & CPVC) WITH THINNER, ROSIN & PHENYL MANUFACTURING

A thinner is a solvent used to thin oil-based paints or clean up after their use. Commercially, solvents labeled "Paint Thinner" are usually mineral spirit having a flash point at about 40 °C (104 °F).....[Read more](#)

❖ ALUMINIUM COLLAPSIBLE TUBES

A collapsible tube is defined as a cylinder of pliable metal that can be sealed in such a manner that its contents, although readily discharged in any desired quantity, are protected from contact with air or moisture. Collapsible tubes are made from aluminum, tin coated lead, or lead tin alloy by cold extrusion.....[Read more](#)

❖ POWER TRANSFORMER

A transformer is a device that transfers electrical energy from one circuit to another through inductively coupled conductors—the transformer's coils. If a load is connected to the secondary, current will flow in the secondary winding, and electrical energy will be transferred from the primary circuit through the transformer to the load.....[Read more](#)

❖ PAPER NAPKINS, TOILET ROLL & FACIAL PAPER FROM TISSUE PAPER ROLLS

Hygiene is an essential component of healthy living, integral to achieving health and preventing disease. Not just selecting the right food choices but also cooking & consuming them in a hygienic way is equally important in preventing the infectious diseases. Adopting hygienic practices and promoting hygiene in the community, schools and workplace prevents innumerable infectious disease....[Read more](#)

❖ **DEHYDRATED ONION & ONION POWDER**

Dehydrated Onions have been produced in small quantities since the nineteenth century. Onion is an important vegetable crop grown in India and forms a part of daily diet in almost all households throughout the year. India is the second largest producer of onion in the world.....[Read more](#)

❖ CHILLI OIL

Spices are used for flavour, colour, aroma and preservation of food or beverages. Spices may be derived from many parts of the plant: bark, buds, flowers, fruits, leaves, rhizomes, roots, seeds, stigmas and styles or the entire plant tops.....[Read more](#)

❖ COAL WASHING UNIT

Coal washing unit is one of the most important unit for upgradation of coal in sense of fed value by reducing of ash contents in the coal. It is basically associated with seive position to get the quality coal. It is used as fuel for running the boiler, in domestic use, in thermal power station to produce electricity, for manufacture of coal gas etc.....[Read more](#)

❖ **SURGICAL COTTON & BANDAGES (EOU)**

Surgical cotton Industry is mainly limited to small and cottage scale units. Bengal chemical & pharmaceutical works Ltd. is the key manufacture of surgical cotton and Bandages.....[Read more](#)

❖ **GRANITE MARBLE CUTTING AND POLISHING UNIT**

The use of granite and other decorative stones has been increasing world over. India is endowed with vast deposits of these natural resources and is therefore, in a position to meet not only the domestic need but also to greatly enhance export.....[Read more](#)

❖ PRODUCTION OF DIFFERENT GRADES OF LIME FROM LIMESTONE (TECHNICAL GRADE LIME, REFRACTORY GRADE LIME, AGRICULTURE GRADE LIME, FCC GRADE LIME)

Lime is manufactured from lime stone. Lime is mainly used for manufacture of hydrated lime. Hydrated lime is a dry powder obtained by treating quick lime with water. It consists essentially of calcium hydroxide and some magnesium hydroxide.....[Read more](#)

❖ THERMOCOLE (EPS) CUP, GLASS & PLATES

Thermocole or expanded polystyrene as the name suggests, is polystyrene expanded to more than two times the volume of polystyrene. Polystyrene foam is an excellent packaging material because of combination of various properties such as lightness, rigidity, shock absorption, thermal insulation, resistance to moisture, snow white colour etc.....[Read more](#)

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- The report provides vital information on the product like it's characteristics and segmentation**
- The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](http://www.entrepreneurindia.co)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are We Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
