

How to Start a Mini Cement Plant.

Cement Manufacturing Industry.

Cement Business.

Introduction

India is the second largest producer of cement in the world. No wonder, India's cement industry is a vital part of its economy, providing employment to more than a million people, directly or indirectly. India has a lot of potential for development in the infrastructure and construction sector and the cement sector is expected to largely benefit from it. Some of the recent major initiatives such as development of 98 smart cities are expected to provide a major boost to the sector.

The most common use for cement is in the production of concrete. Concrete is a composite material consisting of aggregate (gravel and sand), cement, and water. As a construction material, concrete can be cast in almost any shape desired, and once hardened, can become a structural (load bearing) element.

Uses:

Cement is indispensable for building and construction work and cement industry is considered to be an important infrastructure core industry. It is one of the most advanced industries of India. In a developing country like India, the cement industry can play a significant role in the overall economic growth.

- **Building (floors, beams, columns, roofing, piles, bricks, mortar, panels, plaster)**
- **Transport (roads, pathways, crossings, bridges, sleepers, viaducts, tunnels, stabilization, runways, parking)**

- ***Water (pipes, culverts, kerbing, drains, canals, weirs, dams, tanks, pools)***
- ***Civil (piers, docks, retaining walls, silos, warehousing, poles, pylons, fencing)***
- ***Agriculture (buildings, processing, housing, feedlots, irrigation)***

The housing sector is the biggest demand driver of cement, accounting for about 67 per cent of the total consumption in India. The other major consumers of cement include infrastructure at 13 per cent, commercial construction at 11 per cent and industrial construction at 9 per cent.

The Indian cement industry is dominated by a few companies. The top 20 cement companies account for almost 70 per cent of the total cement production of the country. A total of 188 large cement plants together account for 97 per cent of the total installed capacity in the country, with 365 small plants account for the rest. Of these large cement plants, 77 are located in the states of Andhra Pradesh, Rajasthan and Tamil Nadu.

Production of Cement (Million Tonnes)

India's total cement production capacity is nearly 425 million tonnes. The growth of cement industry is expected to be 6-7 per cent in 2017 because of the government's focus on infrastructural development. The industry is currently producing 280 MT for meeting its domestic demand and 5 MT for exports requirement. The country's per capita consumption stands at around 225 kg.

Cement

Demand : Past and Future

Year	(In Million Metric Tonne)
1990-91	45.80
2000-01	99.40
2001-02	102.50
2002-03	111.35
2003-04	117.50
2004-05	127.58
2005-06	147.80
2006-07	161.50
2007-08	180.00
2008-09	185.00
2009-10	192.40
2010-11	200.10
2011-12	220.25
2012-13	240.00
2013-14	252.70
2014-15	265.30
2015-16	385.60
2016-17	310.00
2017-18	335.75
2018-19	367.70
2019-20	400.00
2024-25	565.75

It accounts for 6.9% of the world's cement output. India's cement production capacity is expected to reach 550 million tonnes by 2025. The industry provides employment to more than a million people directly or indirectly. In a country like India, the demand for cement is derived chiefly from the housing sector. One-fourth of the demand comes from the infrastructure sector and about 10-15% demand is generated from the commercial construction sector.

Consumption of Cement in India from 2009 to 2017

(In Million Metric Tons)

The cement market is expected to soon witness an annual increase in demand, which could exceed supply, with the recent decline in capacity addition, especially in Asia Pacific (APAC) countries such as India. This may also prepare a platform for an imposing price appreciation in the future. However, new government regulations or changes in the nation's financial system could affect the demand; for instance, the recent demonetization in India. Nevertheless, even with a small revival in the cement industry, the volume growth is anticipated to improve.

The cement industry immensely relies on construction and building activities. Concrete and mortar are two of the most common products in the construction industry that use cement as a major ingredient. Any escalation in the global construction or building activities will spur the market largely. Other factors that could influence the rise in the worldwide market include escalating number of nuclear families, rising need for accommodation, development in technology, and excessive disposable income.

Major Queries/Questions Answered in the Report?

- 1. What is Cement Manufacturing industry ?**
- 2. How has the Cement Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Cement Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Cement Manufacturing plant ?**

- 5. What is the structure of the Cement Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Cement Manufacturing Business?**
- 7. What are the operating costs for setting up Cement Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Cement Manufacturing plant ?**

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Cement Manufacturing plant ?

10. What are the requirements of raw material for setting up Cement Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Cement Manufacturing Business?

12. What is the Manufacturing Process of Cement?

- 13. What is the total size of land required for setting up Cement Manufacturing plant ?**
- 14. What will be the income and expenditures for Cement Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Cement Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Cement Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Cement Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Cement Manufacturing Business?

19. What are Statistics of Import & Export for Cement?

20. What is the time required to break-even of Cement Manufacturing Business?

21. What is the Break-Even Analysis of Cement Manufacturing plant?

22. What are the Project financials of Cement Manufacturing Business?

- 23. What are the Profitability Ratios of Cement Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Cement Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Cement Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Cement Manufacturing project?**

- 27. What are the Market Opportunities for setting up Cement Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Cement Manufacturing Business?**
- 29. What is the Plant Layout for setting up Cement Manufacturing Business?**

Table of Contents of the Project Report

1. Project Location

1. District Profile & Geotechnical Site Characterization
 1. Geography
 2. Divisions
 3. Demographics
 4. Map
 5. Transport
 6. Airport

2. Introduction

1. Ordinary Portland Cement

3. Uses & Applications

1. 33 Grade Ordinary Portland Cement
2. 43 & 53 Grade Ordinary Portland Cement

4. Constituents & Composition of Ordinary Portland Cement

4.1. Minor Compounds

5. Properties of Cement

5.1. Physical Properties:

5.2. Chemical Properties:

6. B.I.S. Specification

6.1. Quality Control

6.2. IS. 269-1976 Ordinary & low heat Portland cement (third revision) (with amendments No. 1 to 5)

6.3. IS. 10693 Limits for emission of particulate matter from cement plants.

6.4. IS. 12002 Control of air pollution in cement Plants. Portland cement (third revision)

7. Market Survey

7.1. Cement

7.2. Market Structure

7.3. Market Brands

7.4. White Cement

7.5. Leading Brands

7.6. Market Structure

7.7. Market Size

7.8. Investments

7.9. Government Initiatives

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Cement Plant.” provides an insight into Cement market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Cement project. The report assesses the market sizing and growth of the Indian Cement Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Cement sector in India along with its business prospects. Through this report we have identified Cement project as a lucrative investment avenue.

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

www.entrepreneurindia.co

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
