

**Project Opportunities in**  
**Mango Pulp Processing Industry**  
**(Food & Agriculture Sector).**  
**Mango Pulp Extraction Unit**  
**with Cold Storage**

## **Introduction**

**India is the home of mangoes. A large number of varieties are found in almost all parts of the country. Mango Pulp is prepared from selected varieties of Fresh Mango Fruit. Fully matured Mangoes are harvested, quickly transported to the fruit processing plant, inspected and washed. Selected high quality fruits go to the controlled ripening chambers; Fully Ripened Mango fruits are then washed, blanched, pulped, deseeded, centrifuged, homogenized, concentrated when required, thermally processed and aseptically filled maintaining sterility.**

**The preparation process includes cutting, de-stoning, refining and packing. In case of aseptic product the pulp is sterilized and packed in aseptic bags. The refined pulp is also packed in cans, hermetically sealed and retorted. Frozen pulp is pasteurized and deep-frozen in plate freezers. The process ensures that the natural flavour and aroma of the fruit is retained in the final product.**

**Mango puree, which is often called as mango pulp, is a smooth and thick product which is processed in such way that the insoluble fibrous parts of the ripe mangoes are broken up. It retains all of the fruit juice and a huge portion of fibrous matter naturally, which is found naturally in the raw fruit. In few industries, the mango puree is pasteurized in order to increase its shelf life. In terms of consumption and import, the Middle-East region leads the market, followed by the European Union with over 20% of total world imports. The largest user of the mango puree in Europe is the fruit juice industry, but it also has applications in other segments such as ice cream and baby food industry as well.**

**The market for mango pulp grew exponentially which is expected to continue. India is the leader among major mango growers with widely recognized variety of mangoes (primarily Alphonso, Totapuri and Kesar) being used in the manufacturing of pulp.**

**Mango Pulp/Concentrate is perfectly suited for conversion to juices, nectars, drinks, jams, fruit cheese and various other kinds of beverages. It can also be used in puddings, bakery fillings, fruit meals for children and flavours for food industry, and also to make the most delicious ice creams, yoghurt and confectionery.**

**Mango pulp is used as a major food ingredient in the making of mango juice, nectars, juice blends, dairy, bakery, baby food manufacturing, ice-creams etc. However, in recent years the popularity of mango has spread to the western markets with consumers showing interest in the taste. The US juice industry and fresh market has shown consistent interest in both fresh mango and its processed products. The US juice industry has been making more and more use of mango pulp in its orange juice blends.**

**Two main clusters of Mango Pulp are there in the country, which has around 65 processing units with a good backward linkage of Alphonso and Totapuri variety of mangoes. These clusters are Chittoor in the state of Andhra Pradesh and Krishnagiri in the state of Tamil Nadu. Some of the Processing units are in the state of Maharashtra and Gujrat.**

**India is largest mango pulp exporter in the world. Mango production is throughout India. However, most of the pulp industries are established in Southern and Western India and these regions account for major proportion of export that happens from India.**

**The mango pulp industry in Krishnagiri district of Tamil Nadu is the second largest exporter of pulp in the country, generate between rupees 400 to 500 crores of foreign exchange annually. Krishnagiri district is also the second largest mango pulp producer in the country after Chittoor in Andhra Pradesh. The mango pulp is being exported to many countries, including UAE, European countries, Singapore and Malaysia.**

## ***India Facts and Figures:***

**India is also a major exporter of Mango Pulp in the world. The country has exported 1, 35,621.22 MT of Mango Pulp to the world for the worth of Rs. 864.97 crores / 129.29 USD Millions during the year 2016-17.**

**India produces 350,000 tonnes of mango pulp annually, 50 per cent of the estimated 700,000 tonnes of global mango pulp production. It exports 200,000 tonnes of pulp, while 150,000 tonnes is consumed domestically.**

**Mango pulp is an important value added product having good demand in domestic as well as international market. Changing food habits in the country has increased consumption of fruit and fruit products and hence market for fruit juice/concentrates/ powder/ slices/ dices have also increased. Increasing number of nuclear families in India particularly in urban and semi urban areas, and increasing number of working women in the country has increased demand of processed fruit products such as mango pulp and beverages.**

**The prospects for mango pulp exporters India is on the upward swing as demand is growing exponentially. The mango fruit industry is gearing up to meet this increased demand and mango pulp manufacturers are investing in infrastructure and resources to cater to this.**

**The Global Mango Pulp market seen an increasing growth due to the several benefits of mango Pulp such as it prevents cancer, prevents heart disease, helps lower cholesterol, improves digestion, prevents asthma, improves eye health, regulates blood pressure, and improves immunity and many other benefits. It also has a high amount of vitamin A, vitamin C, potassium, protein and fiber due to which it helps prevents infection in pregnant women and also helps prevent eye problem in newborns. It also enhances skin health due to the presence of carotenoids.**

# Major Queries/Questions Answered in the Report?

- 1. What is Mango Pulp Manufacturing industry ?**
- 2. How has the Mango Pulp Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Mango Pulp Processing Plant ?**
- 4. What are the requirements of Working Capital for setting up Mango Pulp Processing plant ?**

- 5. What is the structure of the Mango Pulp Processing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Mango Pulp Manufacturing Business?**
- 7. What are the operating costs for setting up Mango Pulp Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Mango Pulp Processing plant ?**

**9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Mango Pulp Manufacturing plant ?**

**10. What are the requirements of raw material for setting up Mango Pulp Processing plant ?**

**11. Who are the Suppliers and Manufacturers of Raw materials for setting up Mango Pulp Manufacturing Business?**

**12. What is the Manufacturing Process of Mango Pulp?**

- 13. What is the total size of land required for setting up Mango Pulp Processing plant ?**
- 14. What will be the income and expenditures for Mango Pulp Processing Business?**
- 15. What are the Projected Balance Sheets of Mango Pulp Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Mango Pulp Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Mango Pulp Manufacturing Business?**

**18. What are the Personnel (Manpower) Requirements for setting up Mango Pulp Processing Business?**

**19. What are Statistics of Import & Export for Mango Pulp?**

**20. What is the time required to break-even of Mango Pulp Processing Business?**

**21. What is the Break-Even Analysis of Mango Pulp Manufacturing plant?**

**22. What are the Project financials of Mango Pulp Manufacturing Business?**

- 23. What are the Profitability Ratios of Mango Pulp Processing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Mango Pulp Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Mango Pulp Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Mango Pulp Processing project?**

- 27. What are the Market Opportunities for setting up Mango Pulp Processing plant?**
- 28. What is the Market Study and Assessment for setting up Mango Pulp Manufacturing Business?**
- 29. What is the Plant Layout for setting up Mango Pulp Processing Business?**

# Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

# Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

## ***Scope of the Report***

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Mango Pulp with Cold Storage.” provides an insight into Mango Pulp market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Mango Pulp project. The report assesses the market sizing and growth of the Indian Mango Pulp Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Mango Pulp sector in India along with its business prospects. Through this report we have identified Mango Pulp project as a lucrative investment avenue.**

## Reports:

### ▪ Detailed Project Reports

**NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.**

**Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.**

**And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:**

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,**

**Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)**

## Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

*We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.*

*We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.*

## What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

## How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
