

Curry Leaves Essential Oil

Extraction Business.

Start Your Own Spice Oil

Extraction Industry

Introduction

Curry leaves is a spice which is used for the prevention of diabetes due to pharmacological properties owing to its essential oil as it reduces the blood glucose level. It can also ameliorate glucose intolerance. By ingesting curry leaf powder and curry leaf extract there was a clear reduction in blood glucose level whilst is inversely related with the insulin resistance.

Curry leaves essential oil corrects pathological and hyperglycemia abnormalities in the diabetic rats due to its antioxidant effect and restorative potential of redox homeostasis mechanism, excellent recovery of pancreatic tissue can be explained by positive effect of curry leaves oil on the production of insulin because of regenerative effect of the exocrine pancreatic cells.

Curry leaf oil has various chemical compounds that include β -caryophyllene, β -gurjunene, β -elemene, β -phellandrene, β -thujene, α -selinene, β -bisabolene, furthermore limonene, β -trans-ocimene and β -cadinene.

Benefits & Uses:

- It has also been found to prevent hair loss and as a means of helping the skin maintain its natural pigmentation.
- Curry leaf oil is found to be used in the cure of diabetes.
- It is extensively used for flavoring curries, pickles, soups, chutneys.

Curry

- It is used for the production of soap. Volatile oil is used as a fixative for soap perfume.

Curry leaf oil is extracted from the leaves of the curry leaves. Firstly, wash the curry leaves and air dries it. Then heat the pan adding a coconut oil and add the curry leaves. Then pour the oil in a bottle by adding the curry leaves. Curry leaves oil is helpful for the hair and scalp for the nutrient absorption. It is helpful for strengthen hair, hair loss, hair growth, enhance natural shine and prevent premature graying of hair. In Hindi, curry leaves are called Kadipatta and in Tamil, it is called karuvepillai. It helps to treat hair related ailments.

Curry leaf oil is beneficial for the hair related problems as well as maintains the overall health.

It possesses antioxidant, anti-inflammatory, anti-diabetic, stimulant, anti-carcinogenic, anti-dysenteric, carminative, stomachic, antiemetic, appetizer, purgative, analgesic, diuretic, detoxifier, anti-aging, antimicrobial, hepatoprotective, aphrodisiac, revitalizing, depurative, fungicidal, insecticidal, anti-hypercholesterolemic, deodorant and lipolytic properties.

Curry leaf oil is beneficial for the hair related problems as well as maintains the overall health. It possesses antioxidant, anti-inflammatory, anti-diabetic, stimulant, anti-carcinogenic, anti-dysenteric, carminative, stomachic, antiemetic, appetizer, purgative, analgesic, diuretic, detoxifier, anti-aging, antimicrobial, hepatoprotective, aphrodisiac, revitalizing, depurative, fungicidal, insecticidal, anti-hypercholesterolemic deodorant and lipolytic properties.

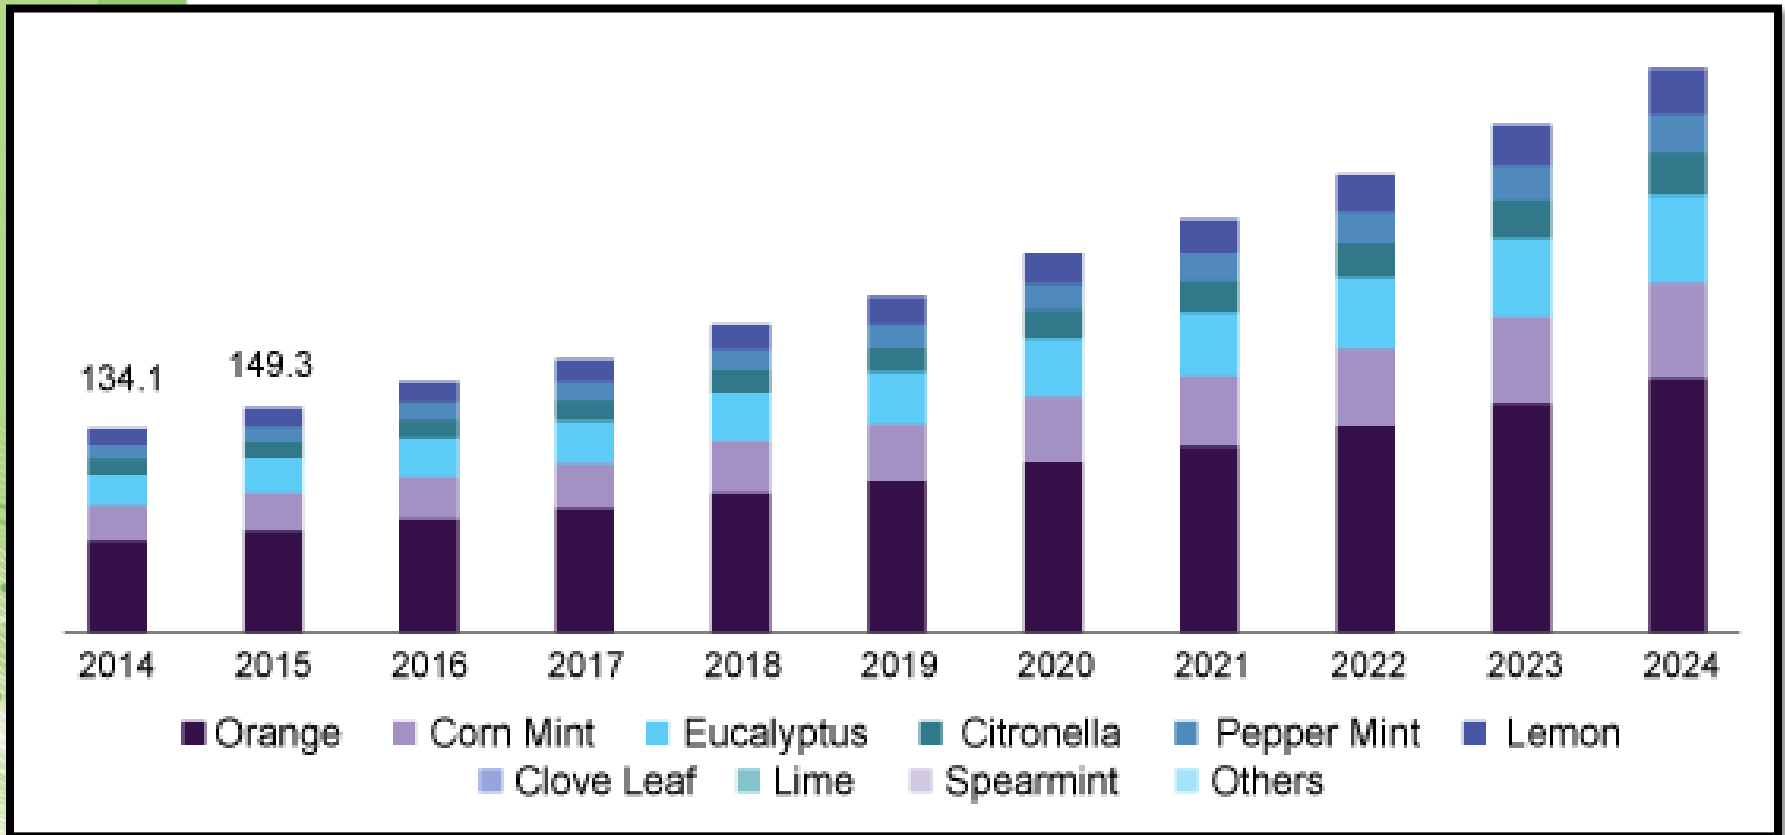

Essential Oil Market is expected to reach \$11.188 million by 2022, with a CAGR of 8.7% from 2016 to 2022. Essential oils, also known as volatile oils/aetherolea/ethereal oils, are derived from leaves, stems, flowers, bark, roots, or other parts of a plant. Essential oil is obtained from various herbs and plants, such as orange, eucalyptus, corn mint, peppermint, citronella, lemon, lime clover leaf, and spearmint, using distillation methods such as steam and water distillation. An essential oil contains volatile aroma compounds and real essence of the plant from which it is derived. Essential oils are primarily used in cosmetics & toiletries, food items and beverages.

The essential oil market is segmented on the basis of product type, application, and geography. The product segment is further classified as orange, eucalyptus, corn mint, peppermint, citronella, lime, lemon, clover leaf, spearmint, and others. Orange oil segment accounted for the maximum revenue share in 2015 and is likely to consolidate its position during the forecast period, owing to its anti-inflammatory, antidepressant, and antispasmodic product characteristics.

Essential Oils Market Size by Product, 2014-2024

(USD Million)

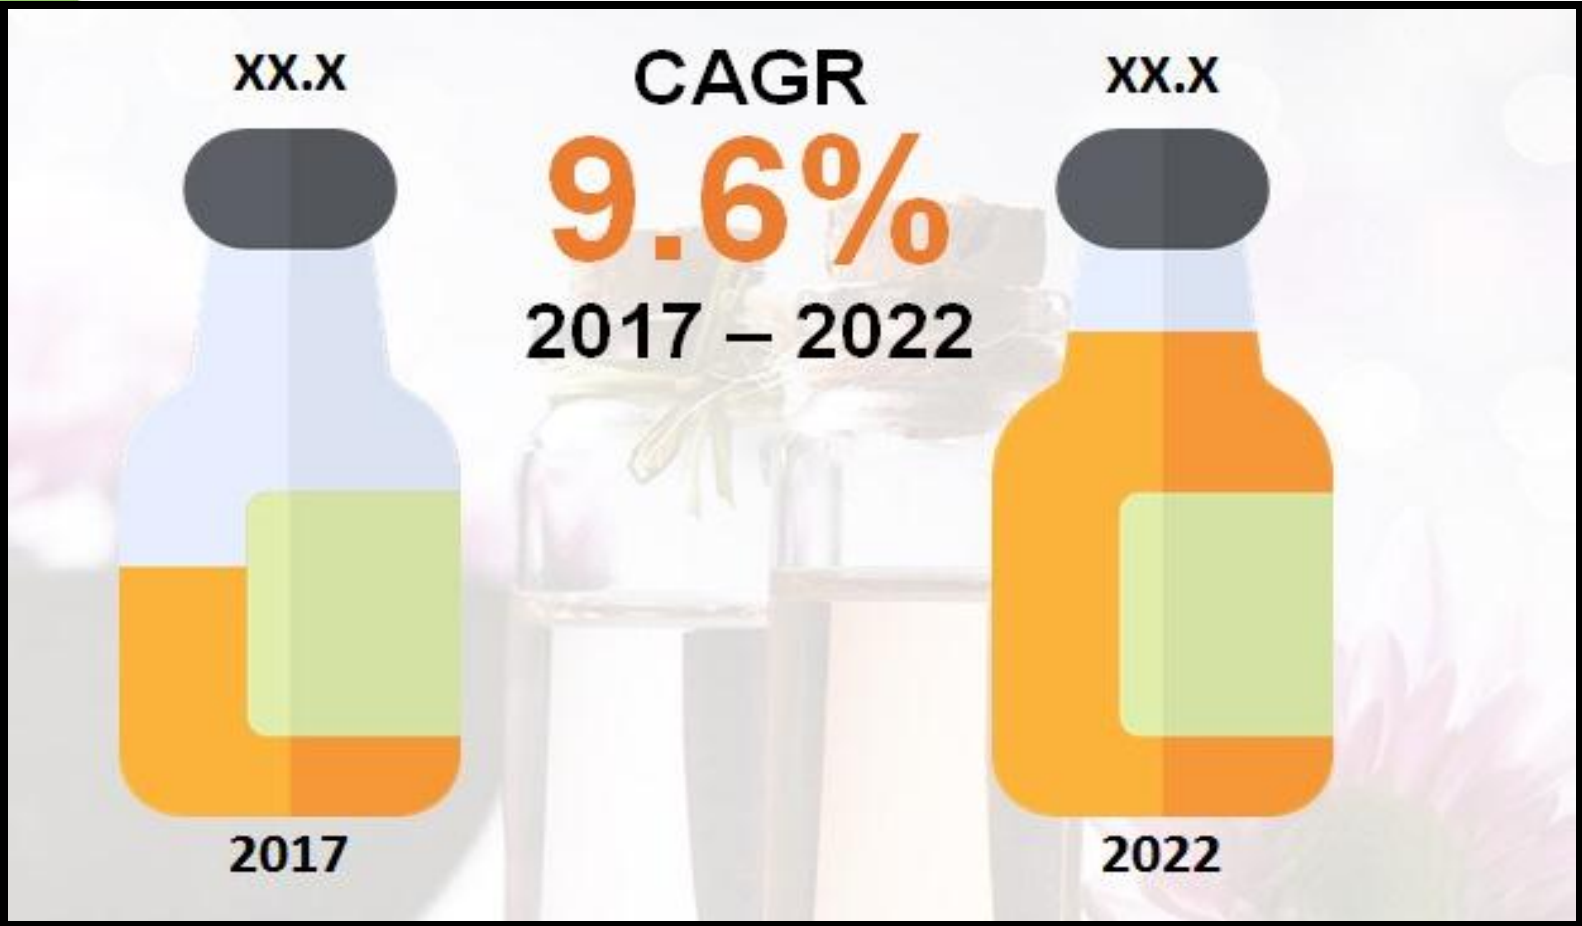

In addition, the food and flavor industry majorly uses orange oil due to its fresh smell and juicy flavor. Based on application, the essential oil market is classified as food & beverages, medical, cleaning & home, spa & relaxation, and others. Spa & relaxation is estimated be the fastest growing application segment, closely followed by applications Food & beverages. Other applications, such as health & wellness, cleaning products where essential oil serves as sweet-smelling mixes, and healthy substitutes for synthetic drugs are anticipated to witness sustainable development in future. Based on geography, the market is categorized into North America, Europe, Asia-Pacific, and LAMEA.

The global essential oil market is observing a significant expansion in its size, thanks to the increasing usage of essential oil in aromatherapy. The augmenting demand for flavored food and beverages products among consumers is also boosting this market substantially. With the rising development of innovative beauty and personal care products, fueled by the increasing preference for natural products, the usage of essential oil for the creation of new fragrances is surging, leading to an expected upswing in this market over the next few years.

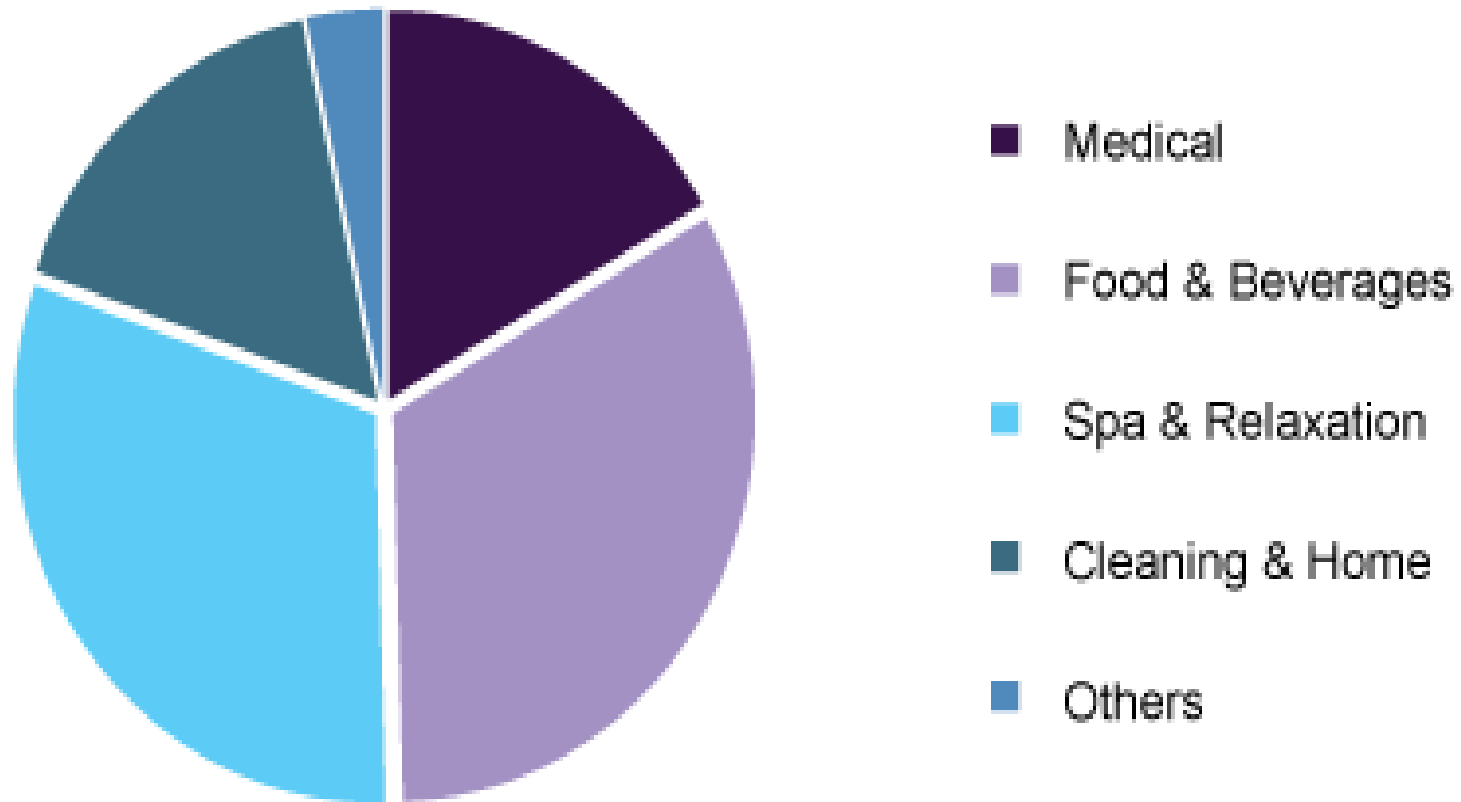

Global Essential Oil Market

Majorly, essential oils find application in the personal care and cosmetic, food and beverage, pharmaceuticals, aromatherapy, and the industrial sectors. The food and beverages and the personal care and cosmetic industries are reporting a greater demand for essential oil, owing to the increasing preference for flavored food products and beverages and fragrant cosmetics and beauty products among consumers. The aromatherapy and the pharmaceutical sectors are also expected to register a high demand for essential oil over the forthcoming years. Essential oils are primarily extracted through distillation, solvent, and cold pressing and are sold through specialty stores, drug stores, online stores, and modern trade.

Major Queries/Questions Answered in the Report?

- 1. What is Curry leaf oil Manufacturing industry ?**
- 2. How has the Curry leaf oil Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Curry leaf oil Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Curry leaf oil Manufacturing plant ?**

- 5. What is the structure of the Curry leaf oil Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Spice Oil Extraction Business?**
- 7. What are the operating costs for setting up Spice Oil Extraction plant ?**
- 8. What are the machinery and equipment requirements for setting up Spice Oil Extraction plant ?**

- 9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Curry Leaves Oil Manufacturing plant ?**
- 10. What are the requirements of raw material for setting up Curry Leaves Oil Manufacturing plant ?**
- 11. Who are the Suppliers and Manufacturers of Raw materials for setting up Spice Oil Extraction Manufacturing Business?**
- 12. What is the Manufacturing Process of Curry Leaves Oil?**

- 13. What is the total size of land required for setting up Curry Leaves Oil Extraction plant ?**
- 14. What will be the income and expenditures for Curry Leaves Oil Extraction Business?**
- 15. What are the Projected Balance Sheets of Curry Leaf Oil Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Curry Leaf Oil Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Curry Leaf Oil Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Curry Leaf Oil Manufacturing Business?

19. What are Statistics of Import & Export for Curry Leaf Oil?

20. What is the time required to break-even of Curry Leaves Oil Extraction Business?

21. What is the Break-Even Analysis of Curry Leaf Oil Manufacturing plant?

22. What are the Project financials of Curry Leaf Oil Manufacturing Business?

- 23. What are the Profitability Ratios of Spice Oil Extraction Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Spice Oil Extraction plant?**
- 25. What are the Projected Pay-Back Period and IRR of Curry Leaves Oil Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Curry Leaves Oil Manufacturing project?**

- 27. What are the Market Opportunities for setting up Curry Leaves Oil Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Curry Leaves Oil Extraction Business?**
- 29. What is the Plant Layout for setting up Curry Leaves Oil Extraction Business?**

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Spice Oil Extraction from Curry Leaves.” provides an insight into Curry Leaves Oil market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Curry Leaves Oil project. The report assesses the market sizing and growth of the Indian Curry Leaves Oil Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Curry Leaves Oil sector in India along with its business prospects. Through this report we have identified Curry Leaves Oil project as a lucrative investment avenue.

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
