

Production of

Stable Bleaching Powder.

Investment Opportunities in Chemical Industry

Introduction

Stable Bleaching Powder (Calcium Hypochlorite) is a widely used chemical. It decomposes on contact with water, releasing chlorine at the point of application. This makes it a strong oxidising, bleaching and disinfecting agent. Bleaching powder is basically a bleaching agent. It finds application as a bleaching agent in Textile Mills, Hand Looms and Power Looms, Hosiery, Laundry, Paper, Soap and Silicate manufacturing and as oxidizing agent in organic synthesis. It is not for Medicinal Use.

Applications and Uses:

- **Disinfecting and deodorizing in food processing, beverage and sugar industries.**
- **For finishing and extra sheen in the carpet industry.**
- **Effluent control in wastes containing cyanide.**
- **Bleaching of cotton yarn, cotton cloth and hemp in textile Industry.**
- **Bleaching, stain removal & disinfection of cotton clothing in laundries, hospitals & homes.**
- **Disinfection in water treatment & sewage disposal.**
- **Controlling of mosquitoes through eradication of mosquito larvae in drains, gutters, ponds etc.**
- **Disinfection, de-odorizing and bleaching of residential premises, swimming pools, public conveniences etc.**

- **Disinfection for preservation of vegetables & fruits**
- **Stable bleaching powder is used to disinfect ponds or seawater where shrimps and prawns are grown. In addition, it is used as a disinfectant and deodorizing agent to reduce the Biological Oxygen Demand (BOD) concentration in water.**
- **Stable bleaching powder is used to sterilize linen and remove stains.**
- **Stable bleaching powder is used to bleach pulp and straw.**
- **Stable bleaching powder finds wide use in the textile industry as a bleaching agent for cotton yarn and cloth.**
- **SBP is used as a disinfectant and deodorising agent to reduce the BOD concentration and control cyanides in water. It is also used in swimming pools as a disinfectant and cleaning agent, apart from controlling algae.**

It is used in a variety of applications, the most important being as disinfectants and cleaners. Calcium hypochlorite is extensively used as a chlorine compound, which is highly effective against several microorganisms such as algae, bacteria, fungi, slime and other harmful and objectionable microorganisms which exist in the environment.

Projected Demand for Stable Bleaching Power (Tonnes)

Year	Projected Demand
2009	93
2010	103
2011	113
2012	124
2013	137
2014	150
2015	166
2016	182
2017	200
2018	220
2019	242
2020	267

Accordingly the quantity of textile finishing agents imported and the share of bleaching powder in the past seven years. There are six units manufacturing bleaching powder in Madhya Pradesh with a combined production capacity of 14,000 metric tonnes per annum.

Calcium hypochlorite is one of the most widely used bleaching, sanitation and disinfecting agent in the world. It is an integral component of bleaching powder which also includes calcium chloride and slaked lime. Calcium hypochlorite is the second most used chemical type in the hypochlorite market, sodium hypochlorite being the most used type. However calcium hypochlorite has more available chlorine and is relatively more stable than liquid bleach.

The global calcium hypochlorite market was valued at around US\$ 5 Bn in 2016 and is anticipated to expand at a CAGR of more than 3% from 2018 to 2026. Expansion in the global calcium hypochlorite market is driven by the rise in demand for fresh water and increase in demand for calcium hypochlorite in pulp & paper applications. The calcium hypochlorite market in Asia Pacific is anticipated to expand at a CAGR of around 4% during the forecast period. Rapid urbanization in developing economies such as China and India is estimated to propel the calcium hypochlorite market in the region.

Major Queries/Questions Answered in the Report?

- 1. What is Stable Bleaching Powder Manufacturing industry ?**
- 2. How has the Stable Bleaching Powder Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Stable Bleaching Powder Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Stable Bleaching Powder Manufacturing plant ?**

- 5. What is the structure of the Stable Bleaching Powder Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Stable Bleaching Powder Manufacturing Business?**
- 7. What are the operating costs for setting up Stable Bleaching Powder Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Stable Bleaching Powder Manufacturing plant ?**

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Stable Bleaching Powder Manufacturing plant ?

10. What are the requirements of raw material for setting up Stable Bleaching Powder Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Stable Bleaching Powder Manufacturing Business?

12. What is the Manufacturing Process of Stable Bleaching Powder?

- 13. What is the total size of land required for setting up Stable Bleaching Powder Manufacturing plant ?**
- 14. What will be the income and expenditures for Stable Bleaching Powder Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Stable Bleaching Powder Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Stable Bleaching Powder Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Stable Bleaching Powder Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Stable Bleaching Powder Manufacturing Business?

19. What are Statistics of Import & Export for Stable Bleaching Powder?

20. What is the time required to break-even of Stable Bleaching Powder Manufacturing Business?

21. What is the Break-Even Analysis of Stable Bleaching Powder Manufacturing plant?

22. What are the Project financials of Stable Bleaching Powder Manufacturing Business?

- 23. What are the Profitability Ratios of Stable Bleaching Powder Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Stable Bleaching Powder Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Stable Bleaching Powder Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Stable Bleaching Powder Manufacturing project?**

- 27. What are the Market Opportunities for setting up Stable Bleaching Powder Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Stable Bleaching Powder Manufacturing Business?**
- 29. What is the Plant Layout for setting up Stable Bleaching Powder Manufacturing Business?**

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Stable Bleaching Powder.” provides an insight into Stable Bleaching Powder market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Stable Bleaching Powder project. The report assesses the market sizing and growth of the Indian Stable Bleaching Powder Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Stable Bleaching Powder sector in India along with its business prospects. Through this report we have identified Stable Bleaching Powder project as a lucrative investment avenue.

Reports:

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

www.entrepreneurindia.co

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
