

Profitable Small Scale Industries-

**Money making Business
Ideas for Startup**

*(when you don't know what
industry to start)*

Introduction

Coming up with a great business idea is just the beginning of your journey as an entrepreneur.

Best startup business ideas means a lot to your startup business growth. People today follow their dreams and choose their passion over money. They are always in search of best startup business ideas which can feed their passion. They don't want to be get retired at the age of 60. They seek for happiness index instead of earning a high salary while living in big cities.

Today, millions of people desire to start their own business, leaving the traditional 9 to 5 job. Most of the people in this world have to chase two or three carriers during their work life.

One of the most gratifying things in the world is to work for yourself. Owning your own business, while it can be stressful, is meaningful because the effort you put in helps you personally, rather than building something for someone else.

The key is that you must choose something that you are passionate about. This may mean a certain business or business model, or it might mean a particular business you have had your eyes on for a long time.

Starting a business entails understanding and dealing with many issues—legal, financing, sales and marketing, intellectual property protection, liability protection, human resources, and more. But interest in entrepreneurship is at an all-time high. And there have been spectacular success stories of early stage startups growing to be multi-billion-dollar companies, such as Uber, Facebook, WhatsApp, Airbnb, and many others.

Here are few ways to identify more business opportunities:

In general sense, the term opportunity implies a good chance or a favorable situation to do something offered by circumstances. In the same vein, business opportunity means a good or favorable change available to run a specific business in a given environment at a given point of time.

- **Come up with an idea**

Pick an idea that fits your passions, goals, strengths, resources, and tolerance for risk.

- **Identify new business opportunities**

Spotting market opportunities is essential for business growth and survival. One of the best ways of identifying new business opportunities is to complete a SWOT (strengths, weaknesses, opportunities and threats) analysis.

- **Pick a Growing Sector/Industry**

When considering a new business, it is important to look at whether or not your idea is in a growing sector or industry. For example, a lot of start-ups in the IT sector in India did very well because there was huge demand in that industry and the growth was outpacing other industries. Investing in a stagnant sector/industry may not best serve your interests, unless you identify a market inefficiency that you can exploit.

Profitable Small Scale Industries-

Money making Business Ideas for Startup

(when you don't know what industry to start) 2nd Revised Edition

<https://goo.gl/uJZn4a>

About the Book:

Author: NPCCS Board of Consultants & Engineers

ISBN: 9789381039922

Book Code: NI187

Pages: 520

Indian Price: 975/-

US\$: 100-

Publisher: Niir Project Consultancy Services

Micro, Small & Medium Enterprises (MSME) have been playing an important role in the overall economic development of a country like India, where millions of people are unemployed or underemployed. The economic development of any country primarily depends upon the establishment of industries. MSME sector comprises 95 per cent of the total industrial units in the country.

The hunt for funding has been the bane of an entrepreneur's existence from times of yore. Many abandon their dream to build, create, and innovate in the face of this difficult struggle without realising that a good business idea will eventually pool in the bounty-full once it has secured a place in the market.

Your idea will bring you your company, your company will bring you the people, and the people will bring you the market. A good idea has no monetary value, just a whole lot of bursting potential. Today, the World's most successful entrepreneurs like Dhiru Bhai Ambani and Karsanbhai Patel – Man behind NIRMA may hold the possibility of building pyramids out of notes, but none of them started at the top of the ladder. Facebook was created out of a Harvard dorm room at minimal cost and Microsoft was formed two years after Gates decided to drop out of college.

For an entrepreneur starting out, it makes good business sense to avoid ideas that require high capital investment in equipment, land, etc. Venturing into the manufacturing business requires to divide time and effort between making business plan, creating the product, and selling. It is best to venture into product areas that requires small to medium investment, which can be returned within few years. If one want to start off on his own, this book provides some manufacturing business ideas with small and medium investment.

The major contents of the book are India Government Loan Schemes for Small Scale Businesses, Government Support for Innovation and Entrepreneurship in India, Pradhan Mantri Mudra Yojana, Packaging and Labeling, Products Packaging, Marketing, Onion Dehydration, Garlic Dehydration, Onion Pickle, Onion Chutney, Garlic Oil, Onion Powder, Ginger Oil, Ginger Powder, Ginger Paste, Tomato Pulp, Tomato Paste, Tomato Ketchup, Tomato Powder, Disposable Blood Bags, Disposable Masks, Disposable Surgical Catheters, Disposable Plastic Syringes, Plastic Cups, Disposable Banana Leaf Plate, Facial Tissue & Baby Wet Wipes, Urea Formaldehyde Resin Adhesive, Toothpaste Production, Gypsum Board, Surgical Absorbent Cotton, Glass Fibre, Complex Fertilizers, Activated Carbon from Wood, Biscuits, Candy, Chocolates, Milk Powder, Instant Noodles, Khakhra, Soft Drinks, Spices and Sample Plant Layouts.

If you ever had an idea that you want to turn into a profitable business endeavor, this book will be a mile stone for you.

Remember Dhirubhai Ambani said, “Ideas are no one’s monopoly Think big, think fast, think ahead.”

Table of Contents

1. INTRODUCTION

Characteristics of Small-Scale Industries

Objectives of Small Scale Industries

Advantages of Small Scale Industries

Growth of Small Scale Industries

Steps to Starting a Business

1. Identify Your Business Opportunity

2. Build a Business Plan

3. Find Start-up Money

4. Name Your Business

5. Choose a Business Structure

6. Get Your Business License and Permits

7. Set Up & Determine Your Business Location

8. Get Business Insurance

9. Create an Accounting System

Two Types of Registration are done in all States

Procedure for Registration

How to Apply

Procedure

Step 1: Provisional Small Scale Industry (SSI) Registration

Benefits of Provisional SSI Registration

Step 2: Start the Business

Step 3: Apply for Permanent SSI Registration

2. INDIA GOVERNMENT LOAN SCHEMES FOR SMALL SCALE BUSINESSES

List of Government Loan Schemes for Small Business in India

1. The Credit Guarantee Fund Scheme for Micro and Small Enterprises
2. Credit Link Capital Subsidy Scheme for Technology Upgradation
3. Small Industries Development Bank of India (SIDBI)
4. National Small Industries Corporation Limited (NSIC)
5. National Bank for Agriculture and Rural Development (NABARD)
6. Market Development Assistance Scheme for MSMEs
7. Technology and Quality Upgradation Support to MSMEs
8. Mini Tools Room and Training Centre Scheme
9. MUDRA Loan

3. GOVERNMENT SUPPORT FOR INNOVATION

4. PRADHAN MANTRI MUDRA YOJANA

Product / Offerings of MUDRA

Pradhan Mantri MUDRA Yojana (PMMY)

Micro Credit Scheme

Refinance Scheme for Banks

Women Enterprise Programme

Securitization of Loan Portfolio

Purpose of MUDRA Loan

Transport Vehicle

Community, Social & Personal Service Activities

Food Products Sector

Business Loans for Traders and Shopkeepers
Equipment Finance Scheme for Micro Units
Activities Allied to Agriculture
Eligibility – Who are Eligible to Avail Loan Under Mudra Scheme?
Interest Rates of Mudra Bank Loan – Interest Rate
How to Apply for Mudra Loan – Process of Receiving Currency Loans
Step 1: Gathering Information and Choosing the Right Bank
Step 2: Preparing Documents and Submitting Applications
Checklist for Mudra Loan (Documents Required)
How to Apply for Bank Mudra Loan
Whom to Contact for Assistance?

5. PACKAGING AND LABELING

6.

Functions of Packaging

6. PRODUCTS PACKAGING

Introduction

Definition of Food Packaging

Functions of Packaging Material

Packaging Materials for Tomato and its Products

Packaging of Tomato

Flexible Packaging

Forms of Flexible Packaging

Manufacturing Techniques

Plastics in Food Packaging

Use of Plastics in Food Packaging

Types of Plastics Used in Food Packaging

Types of Plastic Used in Packaging

Polyethylene

Polypropylene (PP)

Polyethylene Terephthalate (PET or PETE)

Polyethylene Naphthalene Dicarboxylate (PEN)

Flexographic Printing

Digital Printing

Printing and Labelling of Rigid Plastic Containers

In-mould Labelling

Labelling

Dry Offset Printing

Silk Screen Printing

Heat Transfer Printing

Glass and Glass Container Manufacture

Melting

Container Forming

Design Parameters of Glass Containers

Surface Treatments

Hot End Treatment

Cold End Treatment

Low-Cost Production Tooling

Container Inspection and Quality

Conclusion

Precautions during Packing

7. MARKETING

Functions of Marketing

Promotional Techniques

The Product Concept
Some Characteristics of Market Segmentation
Organization for New-Product Development
Developing New Products
Planned Obsolescence
Product Line Relationships
Product Features
The Sales Process

8. ONION DEHYDRATION

Dehydrated Onion
Onion Varieties Suitable for Dehydration
Uses of Dehydrated Onions
Dehydration Practices for Onion
Solar Drying
Convective Air Drying
Fluidized Bed Drying
Microwave Drying
Infra Red Drying
Vacuum Drying
Freeze Drying
Osmotic Dehydration
Onion Dehydration Process
Processing Steps
Power Production and Energy Requirements

9. GARLIC DEHYDRATION

Drying

Methods of Drying

1. Hot Air Drying
2. Solar and Open Sun Drying

Experimental Setup

Design

Raw Material and Sample Preparation

Washing

Drying Process Flow Chart of Dehydrated Garlic

Equipment/Apparatus Used

Measurement of Variables

Air Temperature and Relative Humidity

Air Velocity

Solar Radiation

Initial Moisture Content (IMC)

Moisture Content during Drying Experiment

Equilibrium Moisture Content (E.M.C.)

Moisture Ratio (M.R.)

Drying Rate (D.R.)

Average Drying Rate (A.D.R.)

Quality Evaluation of Dehydrated Garlic

Rehydration Ratio, Coefficient of Rehydration

Comparison between Solar and Open Sun Drying

Freeze Drying

Fluidized Bed Drying

Dehydration Process

Dehydration Process Flow Diagram

Safety Precautions & Other Cares in Garlic Dehydration

10. ONION PICKLE

Introduction

Raw Material

Onion Pickle Manufacturing Process

Onion Pickle Process Flow Diagram

11. ONION CHUTNEY

Introduction

Manufacturing Process of Onion Chutney

Process Flow of Onion Chutney

12. GARLIC OIL

Introduction

Garlic Oil manufacturing Methods

Manufacturing Process

Removal of Undesired Material

Washing of Bulbs

Peeling

Crushing of Bulbs

A Steam Distillation

a. Hydrodistillation

b. Direct Steam Distillation

Advantages of Direct Steam Distillation

Disadvantage of Direct Steam Distillation

Inspection and Analyzing

Packing and Dispatching

Heart Diseases

Cholesterol Levels

Process Flow Diagram
Diabetes
Bodily Aches and Pains
Skin Problems & Other Infections
Other Ailments

13. ONION POWDER

Introduction
Varieties of Onion Powder
Chemical Specification
Nutritional Information
Uses of Onion Powder
Meat Rubs
Bloody Maty Drinks
Spice Mixes
Dressings
Manufacturing Process of Onion Powder
Process Flow Diagram
Health Benefits of Onion Powder
Low in Fat and Calories
Potassium
Magnesium
Calcium
Low in Sodium

14. GINGER OIL

Introduction
Solubility

Chemical Composition
Uses and Application
Packing and Marking
Manufacturing Process
Preparation of Raw Material
Cleaning
Milling
Soaking
Loading or Charging
Bleaching of Ginger
Practice of Distillation
Steam Distillation
End of Distillation
Treatment of the Volatile Oil
Treatment of the Distillation Water
Manufacturing Process Flow Diagram
Rectification of Essential Oils
Problems Relating to Steam Distillation
Environment Pollution and Effluent Treatment

15. GINGER POWDER

Introduction
Properties
Uses of Ginger Powder
Manufacturing Process of Ginger Powder
Process Flow Sheet

16. GINGER PASTE

Properties of Ginger Paste
Uses of Ginger Paste
Chemical & Physical Specification of Ginger
Manufacturing Process
Process Flow Diagram

17. TOMATO PULP

Introduction
Manufacturing Process of Tomato Pulp
Sorting
Washing and Trimming
Crushing
Pulping
Hot Process
Process Flow Diagram

18. TOMATO PASTE

Introduction
Raw Material Requirements
Manufacturing Process of Tomato Paste
Process Flow Diagram

19. TOMATO KETCHUP

Introduction
Uses of Tomato Ketchup
Ingredients Required
Process Description
Process Flow Diagram

20. TOMATO POWDER

Introduction

Uses & Applications

Procedure for Making Tomato Powder

Primary Method

Secondary Method

Process Flow Diagram

21. DISPOSABLE BLOOD BAGS

Introduction

Flexible PVC Blood Bags

Uses of Blood Bags

Properties of Disposable Blood Bags

Raw Material

Quality of the Raw Materials

1. Translucency so can Check it Full, and See Layers in Centrifuged Bags
2. Flexibility (Low Bending Stiffness) so can Process by Squeezing the Bag
3. Heat Resistance, so can Steam Sterilize Prior to Use
4. Materials Property-Melting Temperature
5. Must Not Burst in the Centrifuge, or Tear on Handling
6. Permeable to Oxygen, but not too Permeable to Water
7. Moderate Cost
8. Processing and Welding
9. PVC Plasticized Blood Bag sizes: 350 ml & 450 ml

Manufacturing Process

Flow Sheet Diagram

Bag Making

Tube Making

Blood Bag Forming Machine
Suppliers of Plant & Machinery
Raw Materials Addresses

22. DISPOSABLE MASKS

Introduction
Uses & Applications
Properties
Manufacturing Process of Disposable Surgical Masks
Sterilization
Flow Diagram for Disposable Surgical Mask
Machinery Images for Masks
Mask Making Machine
Surgical Mask Sewing Machine
Mask Blank Machine
Plant & Machinery Suppliers

23. DISPOSABLE SURGICAL CATHETERS

Introduction
Uses & Applications
Common Features of Central Venous Catheter (CVC)
Manufacturing Process of Catheters
Process Flow Diagram of Catheter
Catheter Production Equipments
Plant & Machinery Suppliers
Suppliers of Raw Materials

24. DISPOSABLE PLASTIC SYRINGES

Introduction
Uses
Necessity of Disposable Syringes
Parts of a Disposable Syringe
Nozzle
Piston
Raw Material Used for Manufacturing Disposable Syringes
Polyolefin - (Polyethylene and Polypropylene)
Polyethylene
Polypropylene
Polystyrene
Natural Rubber
Synthetic Polymeric Material
Silicone Oil
Leakage Test
Sterility
Packing
Outer Container
Marking of Outer Containers
Manufacturing Process
Process Description
1st Stage of Process
2nd Stage of Production
3rd Stage of Process
4th Stage of Production
Process Flow Diagram
Assembling Operation and Packing
Machinery Images

Single Barrel Moulds
Syringe Plunger Moulds
Injection Moulding Machine
Disposable Syringe Packaging Machine
Storage of Sterilized Articles
Test for Detection of Aerobic and Anaerobic Organism
Media
Medium for Anaerobic Organism
Medium for Aerobic Organism
A. Benzathine Penicillin, Benzyl Penicillin
B. Other Antibiotic
C. Test for Detection of Fungi Medium
Suppliers of Raw Material

25. PLASTIC CUPS

Introduction
Plastic Cups
Manufacturing Method
Thermoforming
Heating
Forming
Cooling
Trimming
Machine Type
Application of Thermoforming Technique
Raw Material
Steps
Polypropylene Characteristics

Compatibility of Polypropylene with Common Products

Properties of Poly Propylene

Specific Gravity

Mechanical Properties

Electricals

Chemical Resistance

Reports:

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
