Manufacturing Industry.

**Production of Chewing
Tobacco.**

खैनी उद्योग

Introduction

Smokeless tobacco is also called spit tobacco, chewing tobacco, chew, chaw, dip, plug, and probably a few other things. It comes in two forms: snuff and chewing tobacco.

Khaini is a form of chewing tobacco used in India, containing slaked lime.

The most commonly used tobacco product in India is khaini, a tobacco, lime mixture, that is used by every ninth adult (11.2%). The next most commonly used tobacco product is beedi, smoked by 7.7% of adult Indians. Gutkha, a tobacco, lime, areca nut mixture, ranks third (6.8%) and betel quid with tobacco ranks fourth (5.8%). The prevalence of tobacco use among men is 42.4%, while among women it is 14.2%

India, home to the world's second highest number of tobacco users (around 275 million), last year had set a target of reducing tobacco use by 20% by 2020 and 30% by 2025.

There is a huge demand for products like khaini and gutkha in India, The tobacco demand and consumption is very high in India, which will continue to be the key driver of growth in the market. This will be followed by demand from countries outside of India.

A large portion of the Indian economy depends on agriculture, and tobacco is the principal cash crop across many states. Bidi (Traditional cigarettes), snuffs and smokeless tobacco, including gutka, khaini and zarda, are the most popular tobacco-based products. Bidi dominates the tobacco market in India, followed by chewing tobacco and cigarettes.

Indian tobacco is exported to around 100 countries. India exports unmanufactured tobacco primarily to Western Europe, South & South-east Asia, East Europe and Africa. Exports of manufactured tobacco recorded a 25% growth from US\$ 222.3 million in 2013-14 to a record US\$ 278.6 million in 2014-15, while unmanufactured tobacco recorded a dip of 13.82% from US\$ 789.04 million in 2013-14 to a US\$ 680.01 million in 2014-15 respectively.

The tobacco market is expected to grow at a CAGR of 6.3% over the period FY 2016 to FY 2020. A large portion of Indian economy is agricultural based where tobacco is the principal cash crop that is grown in many states. India is the 2nd largest producer and 3rd largest exporter of the tobacco in the world. Bidi dominates the tobacco market in India, followed by chewing tobacco and cigarettes. Indians consume bidis, snuffs and smokeless tobacco, including gutka, khaini and zarda.

The global smokeless tobacco industry is projected to grow at the significant growth rate in the near future owing to increasing consumption of chewing tobacco in developing economies. Key players are shifting their focus from cigarette to the smokeless tobacco products due to growing demand.

On the basis of type, it is segmented into chewing tobacco, dipping tobacco, dissolvable tobacco. Among all the types, chewing tobacco segment is dominating the market and the segment is expected to reach USD 9.96 billion by the end of 2023 with registering a CAGR of 4.30% during the forecast period. However, chewing tobacco segment is further categorized into loose leaf, plug, twist, chew bags and others. Dipping tobacco is further categorized into moist snuff, dry snuff and snus.

Growing demand of chewing tobacco, majorly among the low-income community of consumers is also influencing the market growth. Popularity of consumption of smokeless tobacco among the daily wage workers, is projected to be high due to the low cost and high production capacity of tobacco in the developing country.

In addition to the 45.7 million people who directly depend on tobacco Industry, there are millions who indirectly earn their livelihood from the Tobacco Industry such as people engaged in packaging, warehousing, flavour & fragrance, paper, jute, mentha, areca nut, transporters etc.

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Readymade Khaini (Geeli).” provides an insight into Readymade Khaini (Geeli) market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Readymade Khaini (Geeli) project. The report assesses the market sizing and growth of the Indian Readymade Khaini (Geeli) Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Readymade Khaini (Geeli) sector in India along with its business prospects. Through this report we have identified Readymade Khaini (Geeli) project as a lucrative investment avenue.
