

# 14 Most Profitable Industries to Launch Startups.

## List of Businesses with huge Profits

**Today, tens of thousands of people are considering starting a business, and for good reasons. Throughout the world, small and medium scale manufacturing is considered as a profitable business for startup entrepreneurs. Some of the most lucrative industries are light engineering, paper, food processing, rubber, leather, chemical, and agrochemical industry. Apart from these household products, some construction-related products are also in high demand. Small and medium scale industries play the significant role in the GDP.**

**Small and medium sized enterprises play a central role in the Indian economy. They are a major source of entrepreneurial skills, innovation and employment. SME businesses are the biggest contributor to the economy of any country and the same goes with Indian economy. In fact, SME is one of the most crucial sectors of Indian economy as far as the number of employments generated from this segment. As more than 65% of Indian population lives in rural and semi-rural areas, small business becomes a major source of income for many residing in these areas. After agriculture, small business in India is the second largest employer of human resources.**

**Manufacturing Business ideas that  
you can initiate as  
micro, small, and medium scale  
basis.**

# Projects Covered in this Issue

- **Bentonite Clay Granules**
- **IV Fluids in Plastic Bottles (IV Solution Automatic System)**
- **Agar Agar**
- **Sanitary Napkins**
- **Microcrystalline Cellulose (Pharmaceutical Grade)**
- **Recovery of Lead from Scrap Batteries**
- **Sanitary Napkins**
- **Zinc Chloride**
- **Common Facility Centre for Jute**
- **Zinc Sulphate**
- **Disposable Plastic Syringes with Needles**
- **Welding Electrodes**
- **Steel Hinges & Tower Bolts**
- **Sanitary Napkins**

## Detailed Project Report On Bentonite Clay Granules

**Bentonite is clay generated frequently from the alteration of volcanic ash, consisting predominantly of smectite minerals, usually montmorillonite. Other smectite group minerals include hectorite, saponite, beidelite and nontronite. Bentonite presents strong colloidal properties and its volume increases several times when coming into contact with water, creating a gelatinous and viscous fluid. The special properties of bentonite (hydration, swelling, water absorption, viscosity, thixotropy) make it a valuable material for a wide range of uses and applications.**

**Bentonite Market size was over USD 1.1 billion in 2017 and industry expects consumption above 25 million tons by 2024. [Read more](#)**

**Detailed Project Report On**  
**IV Fluids in Plastic Bottles**  
*(IV Solution Automatic System)*

**Intravenous fluids are fluids which are intended to be administered to a patient intravenously, directly through the circulatory system. These fluids must be sterile to protect patients from injury, and there are a number of different types available for use. The basic function of IV fluids is to replenish the body fluids. Intravenous fluids can also be used as a route of medication administration.**

**The market for Intravenous (IV) Solution is expected to reach USD 11,511.2 million by 2022 and is expected to grow at a CAGR of 7.69% during the forecast period 2016-2022. The factors which drive the growth of the market are the rising prevalence of chronic diseases, rising acceptance of vitamin C intravenous treatment therapy to treat colorectal cancer. [Read more](#)**

## **Agar Agar**

**Agar-agar is a mixture of Polysaccharides (agarose+agaropectine) of a high molecular weight. Agar-agar belongs to the family of galactan polysaccharides. Agar has been used as an ingredient in desserts throughout Asia, and also as a solid substrate to contain culture media for microbiological work. Agar can be used as a laxative, an appetite suppressant, a vegetarian substitute for gelatin, a thickener for soups, in fruit preserves, ice cream, and other desserts, as a clarifying agent in brewing, and for sizing paper and fabrics.**

**The global agar market size was estimated at USD 255.18 million in 2018 and is anticipated to grow at a CAGR of 5.1% from 2018 to 2023. The exponential growth in the usage of this product is attributed to its various functional and health benefits. [Read more](#)**

## Detailed Project Report On Sanitary Napkins

**Sanitary Napkin comes under Nonwoven fabrics which as a whole come under technical textile. In addition to sanitary napkins non-woven fabric is also used in several other products like cigarette filters, headliners, airlines disposables, surgical disposables, non-woven wipes, non-woven abrasives, sports footwear components etc. Meditech products include textile material used in hygiene, health and personal care as well as surgical applications.**

**The Indian sanitary napkin market reached a value of nearly US\$ 414 Million in 2016, the market is expected to reach a value of around US\$ 596 Million by 2022, growing at a CAGR of more than 6% during 2017-2022. Thus, due to demand it is best to invest in this project. [Read more](#)**

**Detailed Project Report On**  
**Microcrystalline Cellulose**  
*(Pharmaceutical Grade)*

**Microcrystalline cellulose (MCC) is a term for refined wood pulp and is used as a texturizer, an anti-caking agent, a fat substitute, an emulsifier, an extender, and a bulking agent in food production. The most common form is used in vitamin supplements or tablets. It is also used in plaque assays for counting viruses, as an alternative to carboxymethyl cellulose.**

**Microcrystalline Cellulose Market size is projected to grow from USD 885.1 million in 2018 to USD 1,241.4 million by 2023, at a CAGR of 7.0% between 2018 and 2023 and is forecast to exceed USD 1.2 billion by 2024. Which facilitates the development of new technologies and ensure a high quality product. [Read more](#)**

## Detailed Project Report On Recovery of Lead from Scrap Batteries

**The recovery of metals from metal scrap has the advantage that it is easier and far less energy dependent than the production of primary lead from ores. Lead is a chalcophile metallic element forming several important minerals including galena  $PbS$ , angle site  $PbSO_4$ , crosstie  $PbCO_3$  and minimum  $Pb_3O_4$ . Recycling lead is relatively simple and in most of the applications where lead is used, such as lead-acid batteries, it is possible to recover it for use over and over again.**

**The production of lead in India from primary sources accounts for nearly two thirds of the total lead production in the country whereas, the world over, the production from secondary smelters accounts for nearly 60% of the total production of lead. [Read more](#)**

## Detailed Project Report On Sanitary Napkins

**Sanitary Napkin comes under Nonwoven fabrics which as a whole come under technical textile. In addition to sanitary napkins non-woven fabric is also used in several other products like cigarette filters, headliners, airlines disposables, surgical disposables, non-woven wipes, non-woven abrasives, sports footwear components etc. Meditech products include textile material used in hygiene, health and personal care as well as surgical applications. Read more**

**The Indian sanitary napkin market reached a value of nearly US\$ 414 Million in 2016, the market is expected to reach a value of around US\$ 596 Million by 2022, growing at a CAGR of more than 6% during 2017-2022. Thus, due to demand it is best to invest in this project. [Read more](#)**

## Detailed Project Report On Zinc Chloride

**Zinc Chloride (ZnCl<sub>2</sub>) is available as white, crystalline powder, odourless, moulded in pencils or porcelains like mass. Zinc chloride is the name of chemical compound ZnCl<sub>2</sub> or its hydrates. All zinc chlorides are colorless or white and highly soluble in water. Zinc chloride is used for crimping wool, cotton and silk. Zinc Chloride is used as catalyst or process material for miscellaneous purposes.**

**The zinc chloride market is pegged at approximately 270.9 Mn in 2018 and is projected to reach a value of US\$ 426.4 Mn by the end of 2028, expanding at a CAGR of 4.6% over the forecast period (2018 – 2028). Entrepreneurs who invest in this project will be successful. [Read more](#)**

## Detailed Project Report On Common Facility Centre for Jute

**The Common Facility Centre for development and promotion of jute diversified products will generate self-employment opportunities for people and benefit the peoples in rural areas formed under various state, providing forward linkage with the market for value added products. Jute industry plays an important role in the development and promotion of jute & jute products, processes, marketing and commercialisation of technologies for the manufacture of all jute products including jute-diversified and jute technical textiles products and creating awareness of the use of this natural fibre in non-conventional applications.**

**Jute Textile Industry is one of the major Industries in the Eastern India, particularly in West Bengal. [Read more](#)**

## Detailed Project Report On Zinc Sulphate

**Zinc sulphate is a very water soluble, transparent, colorless, crystalline compound. It is commonly used as the heptahydrate,  $ZnSO_4 \cdot 7H_2O$ , and is commonly called white vitriol. Zinc sulphate is chiefly used in fertilizer applications and animal feed supplements. It is especially applied on crops such as pecan, deciduous fruits, peanuts, cotton, corn, and citrus, and added to feeds for swine and poultry.**

**Zinc sulphate market is estimated at USD 7.98 Billion in 2017 and is projected to reach USD 10.41 Billion by 2022, at a CAGR of 5.5% from 2017 to 2022. The market is driven by the increased demand for zinc sulphate from various applications, such as rubber compounding, glass & ceramics, and pharmaceuticals. This facilitates the development of new technologies and ensures a high quality product. [Read more](#)**

## Detailed Project Report On Disposable Plastic Syringes with Needles

**The hypodermic syringe, also known as the hypodermic needle, is a device used by medical professionals to transfer liquids into or out of the body. A syringe is one of three primary methods for introducing a drug into the body. The others are transepidermal (through the skin) and oral. Using a hypodermic needle as the method of drug administration has some significant advantages over oral ingestion. Disposable syringes are made of plastic material and are used in the field of medical and veterinary science. Due to their availability in sterilized condition, ready to use, and cost effectiveness, disposable syringes are fast replacing the age-old glass syringes. The global prefilled syringes market size is expected to reach a value of USD 22.5 billion by 2025, according to a by Grand View Research, Inc. [Read more](#)**

## Detailed Project Report On Welding Electrodes

**Welding electrodes comprise basically of steel core wire and coating ingredients or flux mild steel core wires are used in majority of unalloyed steel electrodes. Welding electrodes are used in welding various metals in the fabrication of equipment for chemical & Allied industries, construction of steel structures such as bridges, factory sheds, in the manufacture of ships, Vehicles and engineering equipment.**

**The welding electrodes market is projected to reach USD 15.80 Billion by 2021, at a CAGR of 5.2% from 2016 to 2021. The key factor propelling the growth of the welding electrodes market is the increasing demand for welding electrodes from the transportation and building & construction industries. This facilitates the development of new technologies and ensures a high quality product. [Read more](#)**

## Detailed Project Report On Steel Hinges & Tower Bolts

Hinges are devices that are made out of two symmetrical or none symmetrical sheet metal pieces pivot joined together with wire rod for free swinging of the two parts and are used to support doors or windows of buildings and furniture allowing a swing about the support frames. Tower Bolt is a rod-shaped bolt for fastening a door or the like, attached to one side of the door at the edge and sliding into a cylindrical casing on the frame of the opening. These may be ferrous or non-ferrous.

The growth of this industry is directly linked with the growth of housing construction, ship building industry, automobiles and railways etc. The Indian construction industry is at the threshold of breakthrough, handling around Rs. 1, 50,000 Crores per five year plan period. Entrepreneurs who invest in this project will be successful. [Read more](#)

## Detailed Project Report On Sanitary Napkins

**Sanitary Napkin comes under Nonwoven fabrics which as a whole come under technical textile. In addition to sanitary napkins non-woven fabric is also used in several other products like cigarette filters, headliners, airlines disposables, surgical disposables, non-woven wipes, non-woven abrasives, sports footwear components etc. Meditech products include textile material used in hygiene, health and personal care as well as surgical applications.**

**The Indian sanitary napkin market reached a value of nearly US\$ 414 Million in 2016, the market is expected to reach a value of around US\$ 596 Million by 2022, growing at a CAGR of more than 6% during 2017-2022. Thus, due to demand it is best to invest in this project. [Read more](#)**

## Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects.

Here's we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website

[www.entrepreneurindia.co](http://www.entrepreneurindia.co) that is “Instant Online Project Identification and Selection”

**NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.**

# Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

*We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.*

*We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.*

# What do we Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Industry Trends*
- *Market Research Reports*
- *Technology Books and Directory*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

## How are we Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

# Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

# Who do we Serve?

- *Public-sector Companies*
- *Corporates*
- *Government Undertakings*
- *Individual Entrepreneurs*
- *NRI's*
- *Foreign Investors*
- *Non-profit Organizations, NBFC's*
- *Educational Institutions*
- *Embassies & Consulates*
- *Consultancies*
- *Industry / trade associations*
