Tower bolt is manufactured using stainless steel alloy. It is used in various commercial and domestic areas such as cabinet, doors, closet, windows, rooms and bathrooms. The bolt is made of using quality alloy and technology to make it offer a smooth function. Tower bolt is utilized in glass, wooden or metal door as it offers high safety in locking the doors or close.

Features:

- **Excellent strength**
- **Rust resistance**
- **Durability**

Introduction

Hinges are ideal for self-closing doors or cabinets, and are available in various sizes, with square or radius corners. These special hinges act as an excellent alternative to overhead mounted closers on doors. Features like corrosion resistance, durability and high tensile strength make it in high demand in the consumer market. SS hinges are widely used in doors and windows. Steel Hinges are great for Outdoor Use and Pool Areas.

Steel Hinges have extensive applications in joining doors, windows and similar other structures requiring a movement of one flank with respect to a fixed frame. In housing, the door flanks can have an angular movement with respect to the door frames of wood or steel or aluminum. Its function is to joint one part to the other. Versatile of operation of hinges have played a great role mechanization and modernization in present mechanized life. Hinges are extensively used in safes, Amirah's, boxes of all sizes, machines covers etc.

Features:

- **Light in weight**
- **Sturdy construction**
- **Seamless finish**

Market Outlook

The demand for hinges depends mainly on the performance of its end-user (i.e. the construction and furniture manufacturing sectors). Therefore, the demand for the products under consideration is a derived demand, which depends directly on the performance of its major end – user.

Market Segmentation:

- *By Applications:*
- **Home**
- **Cabinet**
- **Door and Window**

India's Builder Hardware Industry is set to become self-sufficient in the near future; this is because hardware products are growing on the back of technology and innovation, and are being globally recognized at par with Chinese high-end products.

Rising disposable income and the growing construction activity across cities, including renovations in both commercial and residential buildings, are fueling demand for the latest building products. This market trend, in turn, is impacting the unorganized sector adversely and reducing its size.

Construction industry in India is one of the fastest growing industry. It is also said that the construction industry is the second largest industry in India after agriculture. This industry accounts for about 11% of India as GDP. In any country the construction industry plays as an important indicator of the development as it creates investment opportunities across various related sectors. Construction industry in India is an essential part of any country infrastructure and industrial development.

India's construction industry will continue to grow into the next decade. The Indian building market, the sector will grow at a CAGR of 4.16% from now until 2021. India's construction industry is growing ever-stronger, and is becoming an excellent area for build and interiors investment. This guide details the facts about the nation that will be useful for anyone looking to get involved with this vibrant, growing market.

The residential construction industry in value terms increased at a CAGR of 11.7% during 2013-2017. The commercial building construction market in value terms is expected to record a CAGR of 18.3% over the forecast period. The infrastructure construction was estimated to be US\$ 116.8 billion in 2017, posting a CAGR of 12% during review period.

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Steel Hinges & Tower Bolts.” provides an insight into Steel Hinges & Tower Bolts market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Steel Hinges & Tower Bolts project. The report assesses the market sizing and growth of the Indian Steel Hinges & Tower Bolts Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Steel Hinges & Tower Bolts sector in India along with its business prospects. Through this report we have identified Steel Hinges & Tower Bolts project as a lucrative investment avenue.
